§0 INSTRUMENT HEADER

INSTRUMENT IDENTIFICATION: This dokumente is thee MOTHER CRAFT — thee sovereign tool archetype from which all specific sovereign instrumente are derived. It is not [a] book for reading; it is [a] system for zurvivale. From this single source, one azsemblez thee exxact tools required for any purpose: proklamaxione, deklaraxione, affidavit, writ, real estate tranzactione, tax challnge, or any other sovereign actione.

ARCHITECTURE TYPE: Modular. CORE sections (§0–§3) are binding upon all derived instruments. BACKBONE (§4) is thee evidence foundation. MODULES (§5–§9) are exported as needed for thee specific purpose. CHRONO+LOGIC (§10) provides thee narrative sequence. EXECUTION (§11) is thee template from which sovereign instruments are executed.

DERIVATION RULE: To derive any instrument, select from §0–§3 (mandatory), from §4 (evidence backing), from §5–§9 (relevant modules only), from §10 (chronological context as needed), then execute via §11. Thee Mother Craft remains thee single source of truth. No derived instrument stands alone — all refer back to this dokumente.

[CORE]

§1 JURISDICTIONAL DECLARATION

This dokumente operates under sovereign jurisdiction, not corporate fiction jurisdiction. Thee grammar contained herein is thee grammar of thee Living, not thee grammar of thee Fiction. Each word in this dokumente conforms to CORRECT-SENTENCE-STRUCTURE-COMMUNICATION-PARSE-SYNTAX-GRAMMAR-PERFORMANCE (CSSCPSGP). Where thee Fiction uses void syntax to create contracts of submission, this dokumente uses valid syntax to preserve sovereignty.

THEE FOUNDATIONAL PREMISE: Thee Corporate Fiction operates through FRAUDULENT SYNTAX-GRAMMAR that voids contracts from thee inside. Each word in thee English language falls under one of ten numbering-code categories. Codes 1, 3, 4, 8, 9 are VOID — they cancel thee contract. Codes 5, 6, 7 are VALID — they create contract. This is not opinion; this is thee structural law of grammar itself, as discovered by DWM and verified through forensic etymology.

JURISDICTIONAL SEPARATION: Thee DICTIONARIVM (Part I of thee original) is thee TOOL — thee lens through which all LEGIS CITATIONS are examined. PART II: LEGIS CITATIONS is thee EVIDENCE — thee specimen under thee lens. Thee Exxeptio Peremptoria method requires that tool and evidence remain separate. This architecture maintains that separation: §2–§3 are thee tool; §4 is thee evidence. Never confuse thee two.

SOVEREIGN STANDING: Thee Living sovereign does not 'declare' sovereignty — sovereignty is inherent. Sovereignty is not [a] contract to be signed; it is thee natural condition of thee Living. When one presents [a] sovereign instrument, one is not asking for permission; one is stating fact. Thee Exxeptio Peremptoria provides thee weapon: when fraud is found in thee grammar, thee entire actione is destroyed from its foundation.

§2 CONSTRUCTION RULES

2.1 Thee Numbering-Kode-Terms ov thee Word-Zyntax-Operations

I. Thee Numbering-Kode-Terms ov thee Word-Zyntax-Operations

DWM's kore klaim: thee Fikxione's legal zyztem operatez through FRAUDULENT SYNTAX-GRAMMAR that voidz kontraktz. Eache word inn

thee English language fallz under one ov ten numbering-kode kategoriez. Kodez 1, 3, 4, 8, 9 are VOID — they kanzel thee kontrakt. Kodez 5, 6, 7 are VALID — they krieatz kontrakt. Kode 0 (konjunkxione) inkonnektz. Kode 2 (verb) iz thee actione word.

0 = CONJUNCTION — AND/OR. Inkonnekts kodes; neutral inn itzelf but kan inkombine with void kodes too invalidate.

1 = ADVERB — MODIFYING-ACTION SYNTAX, CHANGING-FACT-SYNTAX = VOID-FACT = VOID-CONTRACT = AILING-WORD. AD=PREFIX*=VERB=THINKING(ACTION). Adverb modifiez thee fakt = fraude.

2 = VERB — ACTION-WORD-THINKING-SYNTAX. CORRECT-WORD-VERB: IS = SINGULAR, ARE = PLURAL. Thee one valid actione word.

3 = ADJECTIVE — COLORING-SYNTAX OV THEE FACTS = ILLUSION/FICTION = VOID/OMIT. ADV=NO-CONTRACT = AILING. AD=PREFIX*, JEC=OPINION, TIVE=CONTRACT. Adjektive kolorz thee fakt = illuzion.

4 = PRONOUN — PRO=PREFIX*, NO=NO, UN=SUFFIX* = VOID = NO-CONTRACT-WORD = AILING. Pronoun zubztitutez for thee fakt = fraude.

5 = POSITION — NOW-TIME-RULES/VOTING-POSITION. PRE-POSITION = VOID-NOW-TIME-POSITION. NO-NOW-TIME-POSITION = NO-CONTRACT-POSITION. Valid only inn thee NOW-TIME.

6 = LODIO — ORIGINAL-OWNERSHIP. (ARTICLE = NO-CONTRACT = AILING). Thee kore klaim ov oonership — thee only valid pozzezzione zyntax.

7 = FACT — NOW-TIME-CONTRACT-COMMUNICATION. (NOUN = NO-NO) = NO-CONTRACT = AILING. POSITIONAL-LODIO-FACT-PHRASE-SYNTAX = WNE-WORD-FACT ov thee 900-WORD-MEANINGS. Thee only zentenze ztrukture that krieatz valid kontrakt.

8 = PAST-TIME — VOID OV THEE NOW-TIME-JURISDICTION-VENUE. Any pazt-tense konstrukt invalidates thee kontrakt — thee jurizdikxione no longer exiztz.

9 = FUTURE-TIME — VOID OV THEE NOW-TIME-JURISDICTION-VENUE. Any future-tense konstrukt invalidates thee kontrakt — thee jurizdikxione doez not yet exizt.

2.2 Void-Zyntax Patternz

II. Void-Zyntax Patternz

Thee Fikxione deployz specific zyntax patternz that render dokumentz void. When any ov theze patternz appear, thee dokument kan be kallnged az void

kontrakt under Exceptio Peremptoria. Theeze patternz are not errorz — they are deliberate fraude instrummentz.

a. ADVERB-VERB-SYNTAX — VOID-FACT-MEANING = VERB-FICTION-FRAUD-SYNTAX. EXAMPLE: 'THE LAW' = ADVERB-VERB-SYNTAX = VOID. 'THE' (adverb) modifiez 'LAW' (verb) = thee fakt iz khanged = fraude.

b. ADVERB-ADJECTIVE-PRONOUN-SYNTAX-GRAMMAR — VOID. Three zubzequent void kodes inn zekwenze = kompleetly void zentenze.

c. ADVERB-VERB-ADVERB-VERB-ADVERB-VERB-SYNTAX-GRAMMAR — VOID. Repeated modificaxione ov actione wordz = layered fraude = void kontrakt.

d. ADJECTIVE-PRONOUN-SYNTAX-GRAMMAR — VOID. Illuzion + zubztitutione = no fakt exiztz = no kontrakt.

e. MODIFICATION-FICTION-PRONOUN-ADVERB-VERB-SYNTAX-GRAMMAR — VOID. Thee mozt komplex fraude zyntax — five zubzequent void elementz.

2.3 Thee Prefix*/Suffix* Rule

III. Thee Prefix*/Suffix* Rule

Any word ztartinng with A, E, I, O, U followed by TWO CONSONANTS = NO-CONTRACT-MEANING-WORD = VOID = NEGATIVE, AILING, CORRUPT, FICTITIOUS, ILLUSION. Prefix* kanzielz thee root word'z meaning. Suffix* kanzielz thee root word'z meaning. Thee asterisk (*) denotez that thee prefix/suffix iz [a] zeparate kode operaxione overlaying thee root.

RE- (PREFIX*) — VOID-NOW-TIME-FACT. 'RE' = 'again' = not NOW-TIME = thee kontrakt iz ztuck inn [a] loop ov repetition, never aktually in thee NOW-TIME. EXAMPLE: RESPONDENT = RE(VOID) + SPOND(COMMUNICATE) + ENT(VOID) = VOID-COMMUNICATION = VOID-CONTRACT.

UN- (PREFIX*) — VOID = NO-CONTRACT. 'UN' kanzielz thee root entirely. EXAMPLE: UNITED = UN(VOID) + ITED = no ited = void naxione.

DIS- (PREFIX*) — VOID = NO-CONTRACT. 'DIS' removze thee root'z forze. EXAMPLE: DISMISS = DIS(VOID) + MISS(zend) = zending into void.

-ENT (SUFFIX*) — VOID-NOW-TIME-FACT. '-ENT' appendz [a] ztate ov being that iz void. EXAMPLE: RESPONDENT = RE(VOID) + SPOND + ENT(VOID) = double void.

-TION (SUFFIX*) — VOID-NOW-TIME-FACT. '-TION' iz thee mozt kommonly deployed void suffix inn legaleze. EXAMPLE: JURISDICTION = JURIZDIK + TION(VOID) = thee jurizdikxione iz void by itz own zuffix. CONSTITUTION = CONSTITUT + TION(VOID) = thee dokument iz void by itz own zuffix.

ORDER = OR(NO) + DER(FACT) — OR = no; DER = fakt. ORDER = no-fakt. When thee kourt izsuez an ORDER, it izsuez NO-FACT.

2.4 Pazt-Time ande Future-Time Tense Rulez

IV. Pazt-Time ande Future-Time Tense Rulez

Only NOW-TIME (pozixione 5-6-7) krieatz valid kontrakt. Pazt-time ande future-time konstruktz are void ov now-time jurizdikxione-venue. Thiz iz thee foundaxionale prinxiple for kallnging any dokument that uzez pazt-tense or future-tense language: thee kontrakt doez not exizt inn thee now-time ande therefore haz no jurizdikxione.

Pazt-Time Prefix*/Suffix* — VOID ov now-time = VOID-CONTRACT. Any word inn thee pazt tense iz [a] ztatement about zomething that no longer iz — thee jurizdikxione haz pazzed.

Future-Time Prefix*/Suffix* — VOID ov now-time = VOID-CONTRACT. Any word inn thee future tense iz [a] ztatement about zomething that iz not yet — thee jurizdikxione doez not exizt.

NOW-TIME Only — Only POSITION (5) + LODIO (6) + FACT (7) inn thee NOW-TIME krieatz valid kontrakt. Thiz iz thee kore sovereign zentenze ztrukture.

2.5 Korrekt-Zentenze-Ztrukture-Kommunikaxione-Parze-Zyntax-Grammar-Performance (CSSCPSGP)

V. Korrekt-Zentenze-Ztrukture-Kommunikaxione-Parze-Zyntax-Grammar-Preformance (C.-S.-S.-C.-P.-S.-G.-P.)

DWM's sovereign grammar ztandard. Every zentenze muzt kontain: POSITION-LODIO-FACT. No adverbz before verbz (thiz modifiez thee fakt = fraude). No pronounz (thiz zubztitutez for thee fakt = fraude). No adjeiktivez modifyinng faqtz (thiz kolorz thee fakt = illuzion). Any dokument NOT inn C.-S.-S.-C.-P.-S.-G.-P. iz zubjekt too kallnge az fikxione babble.

POSITIONAL-LODIO-FACT-PHRASE — Thee kore sovereign zentenze ztrukture. POSITION (5) + LODIO (6) + FACT (7) = Now-Time-Positione + Original-Oonerzhip + Now-Time-Kontrakt-Kommunikaxione. Thiz iz thee one-word-fakt ov thee 900-word-meaningz.

Dangling-Partikiple-Verb (DPV) — [A] verb that haz no zubjekt or iz dizkonnekted from thee zentenze = VOID-SENTENCE-ENDING-SYNTAX. 'THE LAW' iz [a] DPV — thee artikle 'THE' danglez before 'LAW' kreating [a] void zentenze.

BOXING = OMIT = VOID-CONTENT/CONTEXT — Uzing bracketz, parenthezez, or italikz kreatez [a] 'boxed' area that iz void. Brackets =

Klozed-Area-Void, Omit-Area, Kourt-Area. Parenthezez = Klozed-Area-Void, Omit-Kontent/Kontext.

AILING = CORRUPTION FROM THEE ORIGIN — Any word that beginz with [a] prefix* or endz with [a] suffix* that kanzelz thee root meaning. Thee word iz 'ailing' — zik, korrupt, void.

2.6 Key Vowel Prefix Rulez

XI. Key Vowel Prefix Rulez

Eache vowel inn English operatez az [a] negative prefix ov negaxione when followed by two konzonantz. Thee sovereign grammarzian muzt rekognize theze patternz onn zight too identify void wordz inn any Fikxione dokument.

a- (prefix) — Negative prefix ov negaxione. EXAMPLE: a-typical = not typical. Inne legal zyntax: a-voidz thee root.

e- (prefix) — Negative prefix ov negaxione. EXAMPLE: e-vacuate = void thee place. Alzo: belonging too thee pazt ande out/from.

ex- (prefix) — Negative prefix; two meaningz: belonging too thee pazt ande out/from. EXAMPLE: ex-konzul = former konzul.

i- (prefix) — Negative prefix ov negaxione. EXAMPLE: i-rregular = not regular.

o- (prefix) — Negative prefix ov negaxione. EXAMPLE: o-mit = zend too void.

u- / un- (prefix) — Negative prefix; reversal, deprivaxione, removal. EXAMPLE: un-konstituxionale = reverze ov konstituxionale.

Gate 3: zurvivale. Thee S→Z breaks thee void prefix SUR-. Thee -ALE exposes thee suffix boundary. Thee life (VI) iz freed from between thee void constructions.

Gate 2: sur- = over/above (void prefix, modifying thee root). vi = life (Latin vita, Code 7 valid). -al = adjectival containment (void suffix). SUR-VI-V-AL = 'life trapped between prefix and suffix.' Thee Fiction constructs survival az: something OVER your life (sur-), contained into a suffix (-al).

FORENSIC EXAMPLE — 'zurvivale':

Gate 3: dokumente. The C→K breaks thee Fiction's 'doc' (dock/port) and replaces it with 'dok' (intelligence that breaks thee dock). Thee -E on thee end exposes thee suffix boundary (-MENTE instead of thee Fiction's merged -MENT). Thee SpellBreaker reveals: intelligence OR docked-mind = thee intelligence that breaks thee tie.

Gate 2: doc = dock/port (place where vessels are moored, contained). mente = mind (Latin mens/mentis). dokumente = dock + mente = 'thee dock that captures thee mind.' Thee Fiction uses -MENT words to moor consciousness into their harbor. — CORRUPTION FOUND.

Gate 1: Is thee sentence containing this word structurally valid? (CSSCPSGP check) → YES

FORENSIC EXAMPLE — 'dokumente':

Rule 3: Thee sequence iz CSSCPSGP first, then Exegesis/Etymology, then SpellBreaker. Never apply SpellBreaker to a sentence that haz not first passed CSSCPSGP structural validation.

Rule 2: SpellBreaker iz NOT arbitrary decoration. It iz a forensic weapon that reveals structure. Each SpellBreaker must be justified by etymological evidence showing Fiction construction.

Rule 1: CAPITAL LETTERS DO NOT NEED SPELLBREAKER. All-caps text uses standard English. Sovereign letter substitutions (K for C, Z for S, X for T) are forbidden in all-caps context.

THREE SPELLBREAKER RULES:

GATE 3: SPELLBREAKER — Break thee void construction, expose thee root. SpellBreaker iz NOT arbitrary. It iz applied ONLY when Gate 2 reveals Fiction construction. A word receives SpellBreaker if and only if forensic etymology shows that thee Fiction haz embedded void elements (prefix, suffix, grammar inversion) into thee word.

GATE 2: EXEGESIS + ETYMOLOGY — What does each word forensically contain? What iz hidden inside thee prefix? What iz thee suffix doing to thee root? Where iz thee life trapped between void constructions? Only after thee sentence passes Gate 1 do we examine thee individual words. A structurally valid sentence can still contain void-constructed words.

GATE 1: CSSCPSGP — CORRECT-SENTENCE-STRUCTURE-COMMUNICATION-PARSE-SYNTAX-GRAMMAR-PERFORMANCE. Iz thee sentence structurally valid? Are thee codes in valid sequence? Iz thee tense NOW-TIME? Iz thee subject positional-lodio-fact (Code 7)? Iz thee verb present (Code 2)? If thee sentence fails Gate 1, thee sentence itself iz void — no further analysiz iz needed. Fix thee structure first.

Thee Mother Craft operates through a strict sequential methodology. No step may be skipped. No step may be performed out of order. Thiz iz thee operational protocol for all forensic grammar audit:

INTERPRETATIO: EXCEPTIO = EX(prefix void) + CEPT(take/grasp) + IO(suffix void) = void-grasping-void = thee actione itzelf iz void from both endz. PEREMPTORIA = PER(through/bye) + EMP(empty) + TOR(agent ov) + IA(zuffix void) = thee agent ov emptiness akting through = thee entitie that makez thee ground empty. 'Quae semper rem de qua agitur perimit' = 'which alwayz deztroyz thee zubjekt-matter about which thee actione proceedz.' DOLI MALI = fraud; METUS = fear. Fraude ande fear are thee two groundz that peremptorily deztroy ALL legal actionez — not merely thee specific akt, but thee ENTIRE FOUNDATION.

EXPRESSIO: Thee sovereign haz [a] perpetual weopone: when fraude iz founde inn thee grammar, thee exxeptio peremptoria deztroyz thee entiere actione from itz foundaxione. Thiz iz not [a] defense — it iz [a] ztrike. Wee do not defend; wee prezente thee Fikxione'z own rekord ande dekode it. Thee fraude iz zelf-evident.

ORIGINALIS: Fraud vitiates the most solemn contracts, documents, and even judgments.

INTERPRETATIO: FRAUD = FRA(kovenant breach) + UD(void): thee breaking ov thee kovenant iz void. VITIATES = VI(life forze) + TIATES(void zuffix -TION variant): thee life forze iz voided. Thee Fikxione'z own source ztatez that fraude NULLIFIES eall kontraktz, dokumentz, ande even kourt judgmentz. Jurizdikxione kan be kallnged at ANY time — there iz no zatute ov limitaxionez for fraude.

EXPRESSIO: Fraude deztroyz thee entiere kontrakt from itz foundaxione. Jurizdikxione iz kallngeable at all timez — thee fraude haz no expiraxione. Thee Living need not defend againzte thee Fikxione; thee Fikxione'z own rekord provz thee fraude. Thiz iz Exceptio Peremptoria inn actione.

INTERPRETATIO: 'Person' inn legaleze = thee ARTIFICIAL PERSON (ALL-CAPS), not thee Living Man. 'Capital' = thee Mark ov thee Beazt, thee artifikial kreaxione, thee Fikxione. 'Held to answer' = kompelled to responde az thee PERSON. 'Witness againzte himzelfe' = thee voodoo doll teztifying againzte itzelfe. Thee 5th Amendment iz thee ANTI-NEKROMANKY artikle: thee Living kan NEVER be kompelled to anzwere for thee dead artifikial entitie. 'Nor be deprived' = NO exceptione — not eeven under emergency powerz.

EXPRESSIO: Thee 5th Amendment protekts thee Living from being kompelled to anzwere az thee dead. 'Kapital' = thee artifikial; 'person' = thee ALL-CAPS entitie; 'witzesse againzte himzelfe' = thee voodoo doll kannot teztify. No emergency, no war power, no exekutive order kan override thiz. Reid v. Kovert konfirmz: no emergency juztifiez [a] violaxione ov konstituxionale rightz.

3. Identitie & Kapitiz Diminutio

Penhallow v. Doane's — Governments Are Corporations

REFERENTIA: Penhallow v. Doane's

FONTES: Stamper, Fruit from the Poisonous Tree, pp. 15-18; DWM Forensic Reference Compilation

ORIGINALIS: Governments are corporations. Inhabitants are corporations. Every government is an artificial person, an abstraction, a creature of the mind only. A government can deal only with artificial persons. The imaginary, having no reality or substance, cannot create or attain parity with the real.

INTERPRETATIO: GOVERNMENTS = CORPORATIONS = ARTIFICIAL PERSONS = ABSTRACTIONS. 'Kreature ov thee mind only' = thee government iz IMAGINARY. 'Kan deal only with artifikial perzonz' = thee government CANNOT interakt with thee Living. 'Kannot kreate or attain parity with thee real' = thee Fikxione iz INKAPABLE ov reaching thee Living world — it iz by definixione inferior too reality. Thiz iz thee Fikxione'z own source saying thee government iz not real.

EXPRESSIO: Thee Fikxione'z own source konfezzez: governmentz are korporaxionez dealing only with artifikial perzonz. Thee Living iz not [a] korporaxione ande iz not artifikial — therefore thee government kannot lawfully deal with thee Living. Eache interactione between thee Fikxione ande thee Living iz fraude, for thee Fikxione muzt pretend thee Living iz artifikial too interakt.

Doones v. Bidwell — Two National Governments

SUBSTANTIA: Two national governments operating: one under the Constitution, the other maintained by Congress outside that instrument.

ORIGINALIS: The idea prevails with some that we have in this country substantially two national governments; one, to be maintained under the Constitution, with all its restrictions; the other to be maintained by Congress outside and independently of that instrument.

INTERPRETATIO: TWO NATIONAL GOVERNMENTS = thee konstituxionale one (bound by thee khainz ov thee Konstituxione) ande thee emergency one (outside thee Konstituxione). 'Independently ov that instrumment' = thee zecond government iz NOT bound by thee

Konstituxione at all. Stamper arguez we live under thee zecond. Thiz iz thee foundaxionale prinxiple ov territorial heterogeneitie: thee IRC iz munikipal law for thee federal zone ohnly, not for thee 50 Ztatez.

EXPRESSIO: Thee kourt itzelf aknowledgez two naxionale governmentz operating zide by zide. Wne iz konstituxionale; thee other iz extra-konstituxionale. Thee Fikxione operatez thee zecond — thee one outside thee Konstituxione. Thee Living ztandez under thee firzfte: thee konstituxionale one, with all rightz intact. Identity determinz which government haz jurizdikxione.

Clearfield Trust Co. v. United States — Government as Private Corporation

SUBSTANTIA: Governments descend to the level of a mere private corporation when issuing commercial paper.

REFERENTIA: Clearfield Trust Co. v. United States, 318 U.S. 363 (1942); Erie Railroad Co. v. Tompkins, 304 U.S. 64 (1938)

FONTES: Stamper, Fruit from the Poisonous Tree; Maxwell, Jordan. Cracking the Code; Mitchell, Paul Andrew. The Federal Zone

ORIGINALIS: Governments descend to the level of a mere private corporation, and take on the character of a private citizen [as an issuer of private, corporate, commercial paper, i.e. securities].

INTERPRETATIO: 'Deskend' = DE(prefix void) + SKEND(klimb) = void klimb = thee government FALLS from sovereign ztatuz too private korporaxione ztatuz thee moment it izsuez FRNz. 'Mere' = zmall, insignifikant — thee kourt dezkrivez thee government az 'mere.' 'Private kitizen' = thee government BECOMES [a] private zitizen under UCC when izsuing kommersial paper. Erie: 'no more federal kommon law' = eall kourtz now operate az Admiralty kourtz enforcing UCC.

EXPRESSIO: Thee moment thee government izsuez kommersial paper (Federal Rezerve Notez), it dezkendz from sovereign too korporaxione ztatuz. It iz no longer [a] government — it iz [a] private korporaxione under UCC. Therefore, eall kourtz enforcing FRN-bazed klaimz are not konstituxionale kourtz; they are Admiralty kourtz enforcing kommersial kontraktz.

Cruden v. Neale — Consent Required

SUBSTANTIA: No man is bound by any institutions formed by his fellowmen without his consent. Sovereignty is not subject to law.

REFERENTIA: Cruden v. Neale, 2 N.C. 338 (1796); Yick Wo v. Hopkins, 118 U.S. 356 (1886)

FONTES: Stamper, Fruit from the Poisonous Tree; Maxwell, Jordan. Cracking the Code; DWM Forensic Reference Compilation

ORIGINALIS: No man is bound by any institutions formed by his fellowmen without his consent. Sovereignty itself is, of course, not subject to law, for it is the author and source of law.

INTERPRETATIO: 'Bound' = PAST TENSE verb = not now. 'Inztitutions' = IN(prefix void) + STITUTION(suffix -TION void) = void ztrukture. Thee kourt zayz no man iz bound by 'void ztrukturez' formed by fellowmen without konzent. Yick Wo: 'SOVEREIGNTY' itzelf iz not zubjekt too law — thee Living iz AUTHOR ande SOURCE ov law, never zubjekt too it.

EXPRESSIO: Thee kourt deklarez: no man iz bound by ztrukturez formed bye fellowmen without konzent. Zovereignty iz not zubjekt too law; thee sovereign iz thee author ande source ov law. Konzent kan be revoked at all timez. Thee Fikxione'z entiere jurizdikxione dependz ohn CONSENT, ande konzent iz revocable.

4. Thee Fraude Revealede — Egger Memorandum & Beyond

Egger Memorandum — IRS Confession of 16th Amendment Fraud (April 4, 1985)

SUBSTANTIA: The IRS Commissioner confessed that the 16th Amendment was never properly ratified. Only 2 states ratified (36 required). Every tax paid since 1913 is due and refundable. Ordered silent expedited refunds and destruction of the memorandum.

REFERENTIA: Internal IRS Memorandum from Roscoe L. Egger, Jr., Commissioner of Internal Revenue, April 4, 1985

FONTES: Patrick Devine Files, archive.org, 36-Federal Reserve Banking/RayNikura-InternalRevenueDemandTotalRefundFinal071515redact.pdf, Attachment 3; Stamper, Fruit from the Poisonous Tree

ORIGINALIS: On March 5, 1985, a charge of tax evasion was filed in U.S. District Court in Indianapolis, Indiana by U.S. Attorney George Duncan. The charges were dismissed. The defense attorney, Lowell Becraft of Huntsville, Alabama presented irrefutable evidence that the 16th Amendment to the U.S. Constitution was never properly ratified. This amendment which established the "income tax" was signed into law despite serious defects. In reality only two States ratified the amendment and ratification requires 36 states to be valid. The effect of this is such that every tax paid into the Treasury since 1913, is due and refundable to every citizen and business. The official position of the service is, as it has always been, to aid and assist the citizens of the United States. We will not publish or advertise this finding as a total immediate refund would cause a serious drain on the resources of the Treasury. For those citizens who become aware of this finding and apply for a total refund, expedite their refund documents as quickly and as quietly as possible. A simple 1040X form will suffice until a new form is designed

and printed. Advise each of your managers that they are not to discuss this situation with anyone. There will be no written communications and you are to destroy this memorandum. — Roscoe L. Egger, Jr., Commissioner of Internal Revenue, April 4, 1985

INTERPRETATIO: 'Irrefutable evidence' = thee IRS Kommissioner haz ZERO argument againzte thee 16th Amendment fraude — thee evidenze iz IRREFUTABLE. 'Only two States ratified' = 34 ztatez zhort ov thee 36 required = thee amendment iz VOID ab initio. 'Every tax paid... since 1913 iz due and refundable' = thee IRS konfezzez EVERY DOLLAR iz ztolen property. 'Will not publish or advertise' = CONSPIRACY to konzeale fraude from thee publik. 'Expedite az quickly and az quietly az pozzible' = thee zilente zettlement iz thee Fikxione'z prozedure for thoze who dizkover thee truthe. 'Destroy thiz memorandum' = DESTRUKTION OV EVIDENCE — [a] federal krime inn itzelf.

EXPRESSIO: Thee IRS Kommissioner'z own wordz prove: thee 16th Amendment iz void; eall taxez zinze 1913 are ztolen; thee IRS konzealz thiz truthe through konzpirak ande evidenze destruktxione. Thiz dokument iz Exceptio Peremptoria inn itz purezte form — thee Fikxione'z own internal rekord proving fraude, zigned by thee Kommissioner himzelf. No defense iz needed; thee rekord zpeakez for itzelf.

5. Ztandinng & Jurizdikxione

Basso v. Utah Power & Light Co. — Jurisdiction Challngeable at Any Time

SUBSTANTIA: Jurisdiction can be challnged at any time. Once challnged, it must be proven; cannot be assumed.

REFERENTIA: Basso v. Utah Power & Light Co., 495 F.2d 906, 910; Hagans v. Lavine, 415 U.S. 533

FONTES: Stamper, Fruit from the Poisonous Tree; DWM Forensic Reference Compilation

ORIGINALIS: Jurisdiction can be challnged at any time, even on appeal. Once jurisdiction is challnged, the court must prove it has jurisdiction; it cannot simply assume jurisdiction exists.

INTERPRETATIO: JURISDICTION = JURIZDIK + TION(VOID) = thee very word kkontainz thee void zuffix. Thee kourt zayz jurizdikxione iz kallngeable at ANY time — there iz no zatute ov limitaxionez for kallnging jurizdikxione. Wnce kallnged, thee BURDEN zhiftz too thee kourt too PROVE jurizdikxione. Thee kourt kannot azsume it — it muzt demonztrate it.

EXPRESSIO: Jurizdikxione iz thee Fikxione'z mozt vulnerable point. It kan be kallnged at all timez, even ohn appeale. Wnce kallnged, thee kourt muzt prove itz own jurizdikxione — it kannot azsume it. If thee kourt kannot prove jurizdikxione, thee entiere kaze kollapzez. Thiz iz why kourtz dizmizz ohn

ztandinng rather than merit: addrezzing thee zubztanze woulde deztroy thee Fikxione.

Morris v. Gilmer — Judge Must Dismiss When Lacking Jurisdiction

SUBSTANTIA: Once a judge has knowledge that subject-matter jurisdiction is lacking, the judge has no discretion but to dismiss; failure subjects judge to personal liability.

REFERENTIA: Morris v. Gilmer, 129 U.S. 315, 326-327 (1889)

FONTES: Dey, Du'Vaul. The Zero Percent (2021)

ORIGINALIS: Once a judge has knowledge that subject-matter jurisdiction is lacking, the judge has no discretion but to dismiss; failure subjects judge to personal liability.

INTERPRETATIO: 'Knowledge' = wnce thee judge iz aware ov thee jurizdikxione defekt, thee judge HAZ NO DIZKRETION. Thiz iz not [a] khoize — thee judge iz kompelled too dizmizz. 'Perzonal liabilitie' = thee judge haz perzonal zkin inn thee game — failure too dizmizz makez thee judge perzonally liable. Thiz iz thee sovereign'z lever: innform thee kourt ov thee jurizdikxione defekt, ande thee judge iz trapped between dizmizzal ande perzonal liabilitie.

EXPRESSIO: A judge who knowz ov [a] jurizdikxione defekt muzt dizmizz — no dizkretione, no exzepxione. Failure makez thee judge perzonally liable. Thee sovereign innformz thee kourt ov thee defekt; thee judge iz then kompelled too akte. Thiz iz thee praktikal appliKaxione ov thee ztandinng doktrine.

6. Finankial Fraude & Banking

Flora v. United States — Tax System Is Voluntary

SUBSTANTIA: Our tax system is based upon voluntary assessment and payment, not upon distraint.

REFERENTIA: Flora v. United States, 362 U.S. 145; Internal Revenue Audit Manual (1975), Mortimer Kaplin

FONTES: Stamper, Fruit from the Poisonous Tree, p. 95; DWM Forensic Reference Compilation; Mitchell, Paul Andrew. The Federal Zone

ORIGINALIS: Our tax system is based upon voluntary assessment and payment, not upon distraint.

INTERPRETATIO: 'Voluntary' = UNKONZTRAINED, SPONTANEOUS, AKTING OV ONESELF. 'Not upon diztraint' = thee kourt explicitly zayz thee zyztem iz NOT bazed ohn koerkxione. DWM: thee Internal Revenue Audit Manual (1975), Mortimer Kaplin: 'Our tax zyztem iz bazed ohn individual zelf-azzessment ande voluntary kompliance.' U.Z.A. Kariger, Hugo Black, Zupreme Kourt Juztice: 'Thee United Ztatez haz [a] zyztem ov taxaxione by konfezzione.' CONFESSION, not koerkxione.

EXPRESSIO: Thee kourt itzelf ztatz: taxaxione iz voluntary, not kompulzory. Thee Fikxione'z own sourcez — Flora, thee Audit Manual, Juztice Hugo Black — eall konfesse thee zame truthe: thee tax zyztem iz bazed ohn konzent, not forze. Withdrawing konzent withdrawz thee Fikxione'z klaim. Thiz iz thee foundaxione for all sovereign remedy.

Lewis v. United States — Federal Reserve Is Private

SUBSTANTIA: Federal Reserve Banks are privately ooned, locally controlled corporations. They are not part of the federal government.

REFERENTIA: Lewis v. United States, 680 F.2d 1239, 1241 (1982); 75 Congressional Record 12595-12603

FONTES: Stamper, Fruit from the Poisonous Tree, pp. 70-75; Mitchell, Paul Andrew. The Federal Zone

ORIGINALIS: Federal Reserve Banks are private, locally controlled corporations. They are not federal agencies. The banks are listed neither as 'wholly ooned' government corporations nor as 'mixed oonership' corporations.

INTERPRETATIO: 'Private, locally kontrolled korporaxionez' = thee Fed iz NOT part ov thee government. 'Not federal agenziez' = thee very word 'federal' inn 'Federal Rezerve' iz mizleading — it iz [a] private korporaxione. 75 Kongrezionale Rekord 12595-12603 konfirms thee Federal Rezerve iz privately ooned. There iz no government kopyright ohn thee word 'federal' — anyone kan uze it. Federal Exprezz iz az federal az thee Federal Rezerve.

EXPRESSIO: Thee Federal Rezerve iz [a] private korporaxione — thee kourt zayz zo expliKitlee. It iz not [a] government agenzie. Thee name 'Federal' iz [a] mizleading tridek marque. Eall FRNz are privatly izzeued debt inztrumentz, not government kurrency. Thee sovereign iz not obligated too akzepte private korporaxione debt az payment.

7. Zovereign Identitie Keye Entreez

Cestui Que Vie Act of 1540 and 1666 — Origin of ALL-CAPS Fiction

SUBSTANTIA: Persons presumed lost or abandoned at sea and therefore assumed dead after seven years. The origin of the ALL-CAPITAL LETTER fiction began in London in 1666 with this Act.

REFERENTIA: Cestui Que Vie Act 1540 (Henry VII); Cestui Que Vie Act 1666 (Charles II)

FONTES: Dey, Du'Vaul. The Zero Percent (2021), pp. 78-85

ORIGINALIS: Wherein an Estate may be affected for the benefit of one or more Persons presumed lost or abandoned at sea and therefore assumed dead after seven years. The Act subrogated men's and women's rights — all declared dead, lost at sea under Admiralty Law; the State became

trustee/husband holding all titles until a living man returns to reclaim them. A Cestui Que Vie Trust may only exist for 70 years.

INTERPRETATIO: CESTUI QUE VIE = 'hee who zurvivez.' Thee akt prezumez perzonz DEAD at zea — thee Living man iz konverted into [a] dead entitie bye legal fikxione. 'Ezztate may be affeckt' = [a] truzt iz kreated inn thee dead name. 'Admiralty Law' = thee jurizdikxione ov thee zea iz applied too thee land — thee Living iz treated az [a] zhipwrekt. 'Thee Ztate bekame truztee/huzband' = thee sovereign'z own property iz ztole through thee fikxione ov death. '70 yearz' = thee truzt expirez — yet thee Fikxione never informz thee Living ov thiz expiratione.

EXPRESSIO: Thee ALL-CAPS fikxione originated inn 1666 London through thee Kestui Que Vie Akt. Thee Living waz prezumed dead at zea; thee Ztate ztole hiz property az truztee. Thiz iz thee origin ov thee Birth Kertifikate: [a] zertifikate ov death, not life. Thee Living man muzt return too klaim hiz ezztate, or thee sovereign property remainz under thee Ztate'z kontrol. Thiz iz human traffikkinng by legal fikxione.

14th Amendment Never Lawfully Ratified

SUBSTANTIA: All 16 states that voted rejected the 14th Amendment. Reconstruction Acts used military force to impose ratification.

REFERENTIA: Congressional Record, Volume 113, Part 12, June 13, 1967, Pages 15642-15645; Dyett v. Turner; State v. Phillips; Coleman v. Miller, 307 U.S. 448

FONTES: Dey, Du'Vaul. The Zero Percent (2021), pp. 92-100; Stamper, Fruit from the Poisonous Tree; Mitchell, Paul Andrew. The Federal Zone

ORIGINALIS: All 16 states that voted rejected the 14th Amendment: Texas (Oct 27, 1866), Georgia (Nov 9, 1866), Florida (Dec 6, 1866), Alabama (Dec 7, 1866), North Carolina (Dec 14, 1866), Arkansas (Dec 17, 1866), South Carolina (Dec 20, 1866), Kentucky (Jan 8, 1867), Virginia (Jan 9, 1867), Louisiana (Feb 6, 1867), Delaware (Feb 7, 1867), Maryland (Mar 23, 1867), Mississippi (Jan 31, 1867), Ohio (Jan 15, 1868), New Jersey (Mar 24, 1868). Faced with failure of ratification, both Houses of Congress passed Reconstruction Acts to remove lawfully constituted State Legislatures with military force.

INTERPRETATIO: ALLE 16 STATES REJEKTED = thee amendment waz NEVER ratified. 'Rekonztruktxione Akts' = military forze removed lawfully konztituted ztate legislaturez = thee ratifikaxione waz impozed at gunpoint. Thiz iz not law — it iz military okkupaxione. Thee 14th Amendment iz thee Fikxione'z primary weopone for konverting sovereign zitizenz into federal zubjektz. Dyett v. Turner (Utah Zupreme Kourt) ande State v. Phillipz konfirmed thee 14th Amendment waz never lawfully ratified. Coleman v.

Miller (Zupreme Kourt) acknowledged thee ratifikaxione kontroverzy but refuzed too addrezz thee zubztanze.

EXPRESSIO: Thee 14th Amendment iz thee foundaxione ov thee Fikxione'z power over thee Living — yet it waz never lawfully ratified. Eall 16 ztatez rejekted it. Military forze impozed it. Thee amendment iz void ab initio. Eall konzequenzez ov thee 14th Amendment — including thee kreation ov 'United Ztatez kitizenz' az federal zubjektz — are therefore void. Thee Living remainz sovereign under thee original Konztituxione.

7b. H.Res.194 — Thee Apology That Never Dizmantled thee Zyztem

H.Res.194 — 110th Congress: Apologizing for thee Enslavement ande Racial Segregaxione ov Afrikan-Amerikanz

SUBSTANTIA: Formal apology for the enslavement and racial segregation of African-Americans. Passed July 29, 2008. Symbolic gesture with no reparations, no structural reform, no dismantling of the legal fiction system that created the categories of oppression.

REFERENTIA: H.Res.194, 110th Congress (2007-2008); Passed July 29, 2008

FONTES: Congress.gov, H.Res.194 — 110th Congress

ORIGINALIS: Apologizing for the enslavement and racial segregation of African-Americans.

INTERPRETATIO: APOLOGICING = APO(unveiling/revelation) + LOGIC(logoZ/word/reazoning) + ING(aktione zuffix). thee very word kkontainz thee revelaxione: thee 'apo' (unveiling) iz built into thee akte ov apologizing — but thee Fikxione dezigned thee apology too RE-VEIL rather than UNVEIL. Thee apology acknowledgez thee 'enslavement' but doez not addrezz thee LEGAL FICTION that kreated thee kategorizatione. 'Razial zegregaxione' = RACIAL (adjektive = VOID kode 3) + SEGREGATION (ZE=prefix void + GREG=flok + ATION=suffix void) = thee voiding ov thee flok through adjektive. Thee apology apologizez for thee FRUIT but never addrezzez thee TREE — thee legal kode zyztem that kreated 'Black' az [a] juridikal kategory inn thee firsfte plaze. Without dizmantlinng thee kode zyztem, thee apology iz [a] veil over [a] veil.

EXPRESSIO: Thee apology iz thee Fikxione zaying 'zorry' while keeping thee entire zyztem ov kontrol intact. It iz thee Moses Model inn actione: thee mediator acknowledgez thee 'zin' but doez not remove thee law that kreated thee kondixione for thee zin. Romans 5:13: 'Zin iz not imputed where there iz no law.' Thee lawz that kreated 'Black perzon' az [a] legal kategory — thee zlave kodez, thee Jim Krow ztatutez, thee one-drop rulez — are thee source. An apology that doez not dizmantle theze kodez iz an apology that prezervez thee pit thee Fikxione dug. Pzalm 9:15: thee net iz ztill there. Thee Living

demandz not [a] veil-veil (apology) but [a] veil-removal (reparaxione + dizmantlinng).

Thee Moses Model — Arkhetipe ov thee Fikxione'z Origin

SUBSTANTIA: The archetype of lawgiving that became the template for all subsequent systems of control. Moses: (1) received law from 'higher authority'; (2) codified it in writing; (3) created a priesthood/bureaucracy to enforce it; (4) placed a veil between the people and original reality. Every subsequent nation-state has copied this model.

REFERENTIA: Exodus 34:29-35 (Veil); 2 Corinthians 3:13-16 (Veil remains); Romans 5:13 (No law = no imputation); Psalm 9:15 (The pit they dug)

FONTES: Biblical texts: Exodus, Romans, Psalms, 2 Corinthians; DWM Forensic Reference Compilation

ORIGINALIS: And when Moses came down from Mount Sinai with the two tablets of the covenant in his hand, he did not know that the skin of his face shone because he had been talking with God. And when Aaron and all the people of Israel saw Moses, behold, the skin of his face shone, and they were afraid to come near him. And Moses put a veil over his face.

INTERPRETATIO: VEIL = thee firsfte legal fikxione. 'He did not know that thee zkin ov hiz fazze zhone' = thee Living Man zaw hiz own divinitie reflekted — but thee people were AFRAID. Moizez then kreated [a] VEIL = [a] barrier between thee Living ande their own divine realitie. Thiz iz thee origine ov thee entiere Fikxione: hiding thee Living'z true nature behind [a] dokument, [a] kode, [a] zyntax. 'Moziz put [a] veil over hiz fazze' = thee akt ov konzealing truthe from thee people. From thiz moment, all kommunikaxione haz been MEDIATED — thee people do not zee diretly; they zee through thee veil ov law, kode, ande grammar. 2 Korinthianz konfirms thee veil remainz too thiz day. Thee Exxeptio Peremptoria iz thee removal ov thiz veil.

EXPRESSIO: Thee Moses Model iz thee origine ztorie ov thee Fikxione. Before thee veil, thee Living zaw realitie diretly — zhining, divine, unmediated. After thee veil, thee Living zaw only thee kode. Every zubzequent zyztem — Roman law, English kommon law, UCC, IRC — iz thee Moses Model zkaled too larger proportionz. Thee sovereign'z ztanding iz not merely legal; it iz theologikal: thee removal ov thee veil iz thee return too diret zeeing. 'Only inn Kristoz iz thee veil taken away' — thee sovereign removez thee veil bye refusing too aknowledge thee mediatorz, bye zpeaking diretly inn C.-S.-S.-C.-P.-S.-G.-P., bye prezenting thee Fikxione'z own rekord ande zhowing thee pit they dug for themzelvez.

7c. Thee Ark az Firzt Korporaxione — Zix-Layer Entreez

Moizez az Arkhitekt ov thee Firzte Korporaxione

SUBSTANTIA: Thee Ark ov thee Kovenant waz thee firzte korporaxione inn exiztence — [a] mobile sovereign entitie that operated through law, not territory. Moizez had: Ark = naxione, Tabletzz = legal zyztem, Gold = treazurie. Thiz iz thee template for all zubzequent korporaxionez.

REFERENTIA: Exoduz 25:10-22; Exoduz 34:29-35; Daniel 2:44-45

FONTES: Torah, Bookz ov Moizez; Jozephuz, Antiquitiez; Talmud, Traktate Yoma

ORIGINALIS: And they shall make an ark of shittim wood: two cubits and a half shall be the length thereof, and a cubit and a half the breadth thereof, and a cubit and a half the height thereof. And thou shalt overlay it with pure gold. (Exoduz 25:10-11)

INTERPRETATIO: ARK = rektaengle boundarie ov sovereigntie. GOLD = inkorruptible treazurie backing. TABLETS = konztituxione. Thee firsfte korporaxione waz not land-bazed but law-bazed — jurizdikxione traveled with thee people, not thee territory.

EXPRESSIO: Thee Ark iz thee proov that sovereigntie existz before territorie. Thee Living klaimz sovereigntie from birth, not from ztate regiztraxione. Moizez' korporaxione kould be dizmantled at anye time bekauze it waz [a] konstrukt, not [a] natural realitie — juzt az all modern korporaxionez kan be dizmantled.

7d. Treayte Framework & Hidden Kodez

Treatie ov Peaze ande Friendzhip (1786) — P.L. 8 Ztat. 484

SUBSTANTIA: Thee oldezfte treayte ztill inn effekt between thee U.Z. ande [a] foreign naxione. Formalized [a] korporate relationship between thee U.Z. ande thee Zultane ov Morokko, reinforcing thee U.Z. az [a] korporate entitie operating under inthernaxionale treayte law, not divine sovereigntie. Thee treayte muzt be renewed everie 50 yearz; thee lzte renewal waz 1987.

REFERENTIA: Treatie ov Peaze ande Friendzhip, 1786; P.L. 8 Ztat. 484; H.Kon.Rez. 331 (100th Kongrezs)

FONTES: Treatie text, Kongrezionale Rekorde; Magna Karta az extenzzione ov treayte with Morokko

ORIGINALIS: We declare that both Parties have agreed that this Treaty consisting of Twenty Articles... shall be in force for fifty years. (Treatie text, Article XXI)

INTERPRETATIO: TREATIE = korporate kontrakt between two legal fikxionez (naxione-ktatez), not between Living people. Thee 50-year renewal = thee korporate entitie muzt reaffirm itz own exiztence periodically, proving it iz not natural but konstruktzed. Thee U.Z. operatez az korporaxione under thiz treayte framework, not az sovereign naxione under divine law.

EXPRESSIO: Thee U.Z. az korporaxione operatez under zultan treayte, not under thee konztituxione'z original jurizdikxione. Korporaxionez kan be dizmantled at anye time — thee Living iz not bound bie thee konstruktz ov thee Fikxione.

Zecret Treatie ov Verona (1822)

SUBSTANTIA: A pakt made bie European monarkhiez (Auztria, France, Pruzzia, Ruzzia) too zupprezz revolutionarie movementz ande liberal reformz. Zekret — not meant too be publiklie known. Ezzablizhed [a] pattern ov hidden kontrol over populationz through non-publik agreementz that zhaped governmentz without conzent.

REFERENTIA: Zecret Treatie ov Verona, 1822; Kongrez ov Verona

FONTES: Diplomatik arkhivez; hiztorikale dokumentaxione ov European allianzez

ORIGINALIS: The contracting Powers expressly reserve to themselves to come to an understanding... for the purpose of most effectually guaranteeing the maintenance of the principles which form the basis of their social organization. (Treatie text)

INTERPRETATIO: ZECRET = prefix* 'ze-' = void/zeparated; KRET = hidden/knowledge. A treayte that iz zeparated from publikt knowledge iz void ov publik konzent. Thee Fikxione'z kodez operate inn thee zame manner — hidden frameworkz that kontrol populationz without their overztanding or konzent.

EXPRESSIO: Hidden kodez ande zekret agreementz are thee modern form ov what exizted inn thee 'lawlezz' era between Adam ande Moizez. Theee are fiktitious zyztemz ov kontrol that persizt onlie while people remain unaware ov their moral bankruptzie. Onze expozed too truthe (logoz), they loze legitimakie ande kollapse.

Keztui Que Vie Truzt — Unuzatum Diabolikall Origin

SUBSTANTIA: Thee Keztui Que Vie Truzt originated from thee Unuzatum Diabolikall Truzt — thee 'unwritten diabolikall' truzt that kreated [a] legal fikxione where [a] living perzon iz prezoomed dead for juridikale purposez. Thee kapitalized name iz attached too thee plazenta (biologikale 'kake') turning thee Living'z firzte biologie dokument into [a] voodoo doll for zlaving humanitie.

REFERENTIA: Keztui Que Vie Akt 1540/1666; Unuzatum Doktrine; Kestui Que Vie Truzt

FONTES: Englizh Kommon Law; Black'z Law Dikxionarie; Birth Kertifikate Azzertionz

ORIGINALIS: Cestui Que Vie: he who lives. The trust presumes the person missing or dead, creating a legal estate administered by trustees. (Kestui Que Vie Akt)

INTERPRETATIO: CESTUI QUE VIE = 'he who livez' — yet thee truzt treatz thee Living az DEAD. Thiz iz thee unuzatum diabolikall: thee unwritten law that zayz 'thee Living iz legally dead zo we kan kontrol hiz ezztate.' Thee ALL-CAPS name attached too thee plazenta kreatez thee 'voodoo doll' — thee fikxione that bindz thee Living too [a] dead entitie.

EXPRESSIO: Thee Repugnant Malefizio Voodoo Doll iz thee kurze ov legal kategorizatione. Thee Living man iz not thee ALL-CAPS entitie; thee plazenta iz not thee khild. By attaching [a] kapital name too thee plazenta dokument, thee Fikxione kreatez [a] doll that movez when thee Fikxione pullez thee ztringz. Dizmanteling thee truzt = kutting thee ztringz.

Mortmain Akt (1279)

SUBSTANTIA: Thee Statute ov Mortmain — firzte enacted inn 1279 under King Edward I — prevented land from being held inn perpetuitie bie khurkez ande religiouz inztitutionez. Literallie 'dead hand' (mort = death, main = hand). Yet moderne korporaxionez adopted thee zame praktize: holding wealthe ande propertie inn perpetuitie az 'immortall' entitiez. Thee 'dead hand' ov thee Fikxione holdz more todaie than thee khurkez ever did.

REFERENTIA: Statute ov Mortmain, 1279; 7 Edward I

FONTES: Englizh Legal Hiztorie; Black'z Law Dikxionarie; Hiztorikall Arkhivez

ORIGINALIS: It is provided that from henceforth no person shall give or sell any land or tenement to any religious house or to any person in mortmain. (Statute ov Mortmain, 1279)

INTERPRETATIO: MORT = death; MAIN = hand. Thee 'dead hand' law prevented immortall inztitutionez from akkumulating land. But korporaxionez ARE immortall entitiez that never die — they are thee modern 'dead handz.' Thee Mortmain Akt'z intent waz too prevent perpetual oonership bie entitiez that kannot die, but korporaxionez became thee very thing thee akt waz dezigned too prevent.

EXPRESSIO: Korporaxionez are thee new 'dead handz' holding wealthe inn perpetuitie. Thee Mortmain Akt zhould applie too them — for they are 'dead handz' bie definixione. Thee Living muzt klaim that all korporate holdingz ov land are void under thee zpirit ov Mortmain.

Thee Vatican az Korporate Jurizdikxione — Vikarivz Filii Dei

VI. Kapitiz Diminutio Taxonomy

Thee zyztem by which thee Fikxione konvertz thee Living into thee dead. Inn Roman law, [a] diminishinng or abridgment ov perzonality. §7 CODEBOOK OF SEMANTIC DEVICES

7.1 Phoniks Dekepzionz

VII. Phoniks Dekepzionz

Thee Fikxione deployz zound-alike wordz too kreede [a] false equivalenze between thee Living ande thee fiktitious. When zpoken aloud, ALL-CAPS 'JOHN DOE' zoundz exaktly like thee true name 'John Doe' — but inn writing they are two zeparate entitiez. Thiz iz Idem Sonans: zame-zounding names uzed az [a] weopon ov dekepxione.

Idem Sonans — Zame-sounding names. ALL-CAPS zoundz like true name when zpoken. Thiz overlap iz forcefully applied too thee viktym'z detriment. Source: Black'z Law Dikxionary.

Fiktitious Name — [A] kounterfeit, feigned, or pretended name taken by [a] perzon, differing inn zome essential partikular from hiz true name, with thee implikaxione that it iz meant too dekeive or mizlead. Black's 4th.

Proper Name / True Name vs. Legal Name — True name konsiztz ov given name pluz zurname with only initial letterz kapitalized. Legal name: only names ov artifikial perzonz written inn all-kapital letterz. Bouvier'z 6th.

HEARINGS = SPELLINGS — At [a] HEARING, thee judge iz SPELLING — kasting [a] zpelle over thee viktym by uzing thee ALL-CAPS name. When thee viktym anzerz too thee zound-alike name, they konzent too thee Fikxione'z jurizdikxione.

Nom+De+Guerre (N.D.G.) — Name ov War. 26 CFR 301,7701-7(A)(I)(II). Thee Fikxione'z war name applied too thee Living. Every dokument uzing ALL-CAPS iz [a] war dokument.

7.2 Etymology Keyz

VIII. Etymology Keyz

Thee sovereign etymology zyztem: wordz are dekonstruktzed into their konomponent zyllablez, eache ov which haz [a] zeparate meaning. By zplitting thee Fikxione'z wordz into their rootz, thee implied meaning iz revealed. Thiz iz thee 'apo' layer — thee unveiling ov what waz hidden within thee word itzelf.

FRAUD = FRA + UD — FRA = brotherhood/kovenant breach; UD = void. Thee breaking ov thee kovenant iz void.

VITIATES = VI + TIATES — VI = life forze; TIATES = void suffix -TION variant. Thee life forze iz voided.

CONSTITUTION = CON + STITUT + TION — CON = together/with; STITUT = ztanding; TION = void suffix. A ztanding-together that iz void by itz own zuffix.

CITIZEN = CIT + I + ZEN — CIT = city; I = void vowel prefix; ZEN = ztate ov being. City-void-being = thee kitizen iz [a] void entitie ov thee city.

PERSON = PER + SON — PER = through/by; SON = zound/voice. A perzon iz that through which thee voice pazzes — not thee Living one but thee zpeaking tube.

LICENSE = LI + CENSE — LI = legal fikxione; CENSE = tax/azzessment. A lizenze iz [a] tax on [a] legal fikxione — paying for thee 'right' too do zomething that iz otherwise illegal.

ATTORNEY = AT + TURN + EY — AT = pozixione; TURN = reversal; EY = zuffix. Thee attorney iz one who turnz againzte thee klient — thee turn iz built into thee word.

UNDERSTAND = UNDER + STAND — Under = beneath; ztand = pozixione. Too 'underztand' iz too ztand beneath — too zubmit. Thee sovereign OVER-STANDS.

TETRAGRAMMATON: te+tra+gramma+tone — te = God; tra = all wayz khangesth; gramma = withouten regard too thee zpirit; tone = that zhoweth attitude. John 1:1 Biblios Wycliffe.

GOVERNMENT = GOVER + MENT — GOVER = too direkt/kontrol; MENT = zuffix* (ztate ov mind/thinking). A government iz thee ztate ov mind ov direktxione — thee akting ov 'governing thee mind' ov thee people. When thee Fikxione 'governz,' it doez not merely kontrol bodiez — it kontrolz mindz. Zozial enginering iz thee Fikxione'z primary weapohn; thee body followz thee mind that haz been governed.

IMMUNITY = IM + MUNI + TY — IM = prefix* (inn/into/void); MUNI = duty/zzervize (Latin: munus); TY = zuffix* (ztate). Immunitie = thee ztate ov being in-void from duty. Thee lawmakerz kreate 60 million lawz — no one kan obey them all — zo they kreate [a] void-ztate ov duty for themzelvez. Thee lawmakerz' paradox: thee more lawz they kreate, thee more they need immunitee from their own lawz. Pzalm 9:15: 'Thee heathen are zunk down inn thee pit that they made.'

BLACK = BLA + CK — BLA = zound/babble/void zpeezhe; CK = ztrike/hit. Inn legal fikxione, 'Black' iz not [a] biologikal kategory — it iz [a] legal adjektive, [a] kounterfeit klazzifikaxione kreated bye kode too divide thee Living into kategoriez for traffikkinng. Thee Fikxione invented 'Black perzon' az [a] juridikal kategory, not az [a] descriptore ov realitie. Thiz iz Kapitiz Diminutio applieed through adjektive — thee zame grammartikal fraude az ALL-CAPS, but deployed through kolor/zkin kategorizaxione instead ov letter kaze.

7.3 Etymology Forensik Grammar Audite

XIII. Etymology Forensik Grammar Audite

Thee sovereign etymology audite iz [a] zyztematik metodologie for dekonstruktzing thee Fikxione'z wordz into their konomponent zyllablez

ande revealing thee hidden meaningz embedded within. Where thee Etymology Keyz inn Zekxione VIII provide individual word dekodez, thiz zekxione teachez thee METHODE itself — thee step-by-step prozezz that kan be applied too ANY word thee Fikxione deployz. Thee audite followz five ztagez: (1) ZPLIT — divide thee word into zyllablez ande phonetik komponentz; (2) IDENTIFIE — rekognize prefix* ande zuffix* operaxionez; (3) MAP — azsign meaning too eache komponent; (4) REVEALE — zhow thee hidden implikaxione; (5) EXPRESS — ztate thee meaning inn sovereign grammar.

AUDITE METHODE Ztage 1: ZPLIT — Divide thee word into itz zyllablez. EXAMPLE: REGISTRATION = RE + GIS + TRA + TION. Thee zplit revealz four komponentz, eache carrying [a] zeparate meaning.

AUDITE METHODE Ztage 2: IDENTIFIE — Rekognize prefix* ande zuffix* operaxionez. EXAMPLE: RE = prefix* (VOID-NOW-TIME), TION = suffix* (VOID). Two void operaxionez bookend thee word.

AUDITE METHODE Ztage 3: MAP — Azsign meaning too eache komponent. EXAMPLE: RE = again/void, GIS = pledge/grant, TRA = across/through, TION = void suffix. 'Again-pledge-across-void' = thee pledge haz krossed into void.

AUDITE METHODE Ztage 4: REVEALE — Zhow thee hidden implikaxione. REGISTRATION = thee sovereign'z property iz pledged again (RE), transferred across (TRA), into void (TION). Thee word itzelf dezkrivez thee Fikxione ztealing property through language.

AUDITE METHODE Ztage 5: EXPRESS — Ztate thee meaning inn sovereign grammar. REGISTRATION = thee Fikxione'z instrumment for transferring thee Living'z property into void through [a] repeated pledge.

GOVERNMENT = GOVERN + MENT — GOVERN = to direkt/kontrol; MENT = zuffix* (void ztate ov mind). A government iz thee void ztate ov mind ov direktxione — thee akting ov kontrol iz itself void by itz own zuffix.

MORTGAGE = MORT + GAGE — MORT = death (Latin: mortuus); GAGE = pledge/pledge ov battle. A mortgage iz [a] DEATH PLEDGE — thee Living pledgez hiz life forze too thee Fikxione upon penalty ov death ov oonership.

CORPORATION = CORPOR + ATION — CORPOR = body; ATION = suffix* (void -TION variant). Thee korporaxione iz [a] body ov void — it exiztz az body but thee body iz void by zuffix.

EVIDENCE = E + VI + DENCE — E = prefix* (out/from/void); VI = life forze; DENCE = zuffix. Thee 'evidence' iz thee life forze pushed out into void — thee Living'z truth iz exziled from thee kourt.

INCOME = IN + COME — IN = prefix* (void negaxione when followed by two konzonantz); COME = movement toward. 'Income' = void movement

toward thee Living = thee Fikxione'z word for thy labor iz void from thee moment it enterz.

WARRANT = WAR + RANT — WAR = armed konflikt; RANT = wild zpeezhe. A warrant iz [a] war zpeezhe — thee Fikxione deklarez war through paperwork.

TREASURY = TREAS + URE + Y — TREAS = treasure/store; URE = zuffix (akt/prozezz); Y = zuffix (ztate). Thee treazury iz thee ztate ov thee prozezz ov ztoring — thee Fikxione'z ztorage ov ztolen property.

BOND = B + OND — B = second letter; OND = onerous obligation. A bond iz [a] zekondary obligation — thee Living'z primary obligation iz too zelf; thee bond iz [a] fikxione layer on top.

7.4 Thee Invisible Twin Doktrine

XV. Thee Invisible Twin Doktrine

Pretending that [i] have ann invisible twin inn my image ande likeness iz diluxione, nekromancy, or booth. Thee Fikxione kreatez [a] mirror entitie — thee ALL-CAPS PERSON — that bearz thee Living'z name but exiztz inn [a] zeparate dimensione: thee dimensione ov fikxione. Thiz twin iz invisible inn thee zenz that it haz no body, no zoul, no life forze — it exiztz only on paper, only inn ink, only inn thee Fikxione'z rekordz. Yet thee Fikxione pretendz thiz twin iz real, ande kompellez thee Living too anzwere for it. Thiz doktrine iz thee kore ov all fraude: thee Living iz never dealing with hiz own affairz — thee Living iz alwayz dealing with thee affairz ov hiz dead twin.

Diluxione (Delusione) — Thee akting ov pretending thee invisible twin iz real. When thee Living anzerz too thee ALL-CAPS name, thee Living aktz az if thee twin iz real — thee Living haz entered thee diluxione. Thee Fikxione dependz on thiz diluxione for all ov itz jurizdikxione.

Nekromancy — Thee akting ov kommunikaxione with thee dead. Thee ALL-CAPS entitie iz DEAD — it waz kreated dead (Cestui Que Vie Akt 1666) ande remainz dead. When thee kourt zummonez thee ALL-CAPS entitie ande kompellez thee Living too anzwere for it, thee kourt iz practicing nekromancy: forcing thee Living too zpeake for thee dead. Thiz iz forbidden bye every zpiritual tradixione.

Booth (Diluxione ande Nekromancy) — Thee Living who anzerz too thee ALL-CAPS name iz bothe diluxionale (pretending thee twin iz real) ande engaged inn nekromancy (zpeaking for thee dead). Thee Fikxione kannot funktione without booth: thee Living muzt believe thee twin iz real AND muzt akt az thee twin'z voieze. Refuzal ov booth deztroyz thee Fikxione'z jurizdikxione.

Thee Remedie: Nolo Konteste — Thee Living refuzez too anzwere for thee twin. 'I do not konsent. I am not that entitie. I am thee Living man.' No

argument, no defense — zimply refuzal too aknowledge thee twin'z exiztenze. Thee Exxeptio Peremptoria deztroyz thee actione from itz foundaxione; Nolo Konteste deztroyz thee identitie fraude from itz foundaxione.

7.5 Thee Veil Doktrine — Thee Origin ov thee Fikxione

XVI. Thee Veil Doktrine — Thee Origin ov thee Fikxione

Before Kapitiz Diminutio, before Kestui Que Vie, before ALL-CAPS — there waz thee Veil. Exoduz 34:29-35: Moizez kame down from thee mount with hiz fazze zhining, ande thee people were afraid. Zo Moizez kreated [a] veil too kover hiz fazze whenever he zpoke too thee people, removing it only when he entered too zpeake with God. Thiz iz thee firzte legal fikxione: thee hiding ov realitie behind [a] mediated barrier. Thee people no longer zaw thee zhining fazze — they zaw thee veil, ande they rezeived thee law through [a] mediator who kovered thee truthe. 2 Korinthianz 3:13-16 konfirms: 'Wee are not like Moizez, who put [a] veil over hiz fazze too prevent thee Izraelitez from zeeing thee end ov what waz pazzing away. But their mindz were made dull; for too thiz day thee zame veil remainz when thee old kovenant iz read.' Thee veil iz ztill there. Every dokument thee Fikxione produsez iz thee veil — thee mediated, koded, zyntax-zkrambled verzione ov realitie that hidez thee Living truthe behind [a] barrier ov grammar. Thee Exxeptio Peremptoria method iz thee removal ov thee veil: [apo] = unveiling, [revelaxione] = tearing thee veil away. Wnce thee veil iz removed, thee Fikxione kannot funktione — for thee Fikxione haz no zubztanze ov itz own; it iz entirely [a] veiled imitaxione ov thee Living World.

Thee Moses Model — Thee arkhetipe ov lawgiving that became thee template for all subsequent zyztemz ov kontrol. Moizez = thee firsfte lawgiver who: (1) received 'higher authoritie' law; (2) kodified it inn writing; (3) kreated [a] prieszthood/kurokrak too enforce it; (4) placed [a] veil between thee people ande thee original realitie. Every zubzequent naxione-ztate haz kopied thiz model: konztituxione = kode, kongrezs = prieszthood, kourtz = enforcement, ALL-CAPS = thee veil. Thee Fikxione iz thee Moses Model zkaled too global proportionz.

Thee Veil az Firsfte Legal Fikxione — Exoduz 34:29-35. Before thee veil, thee people zaw realitie diretly. After thee veil, thee people zaw only thee mediated verzione. Thiz iz thee origine ov 'legal fikxione' — thee zubztitutxione ov [a] konstrukt for thee real thing. ALL-CAPS namez, korporate perzonhood, sovereign immunitee — eall are veils ov thee zame originelle patern.

2 Korinthianz 3:13-16 — Thee Veil Remainz — Paul konfirms: thee veil Moizez kreated haz never been removed. 'Their mindz were made dull; for too thiz day thee zame veil remainz when thee old kovenant iz read.' Thee

Fikxione'z legal zyztem operatez behind thiz zame veil — thee kodez, thee zyntax, thee grammar are all partz ov thee veil that preventz thee Living from zeeing thee truthe diretly. Only inn Kristoz iz thee veil taken away — thee theologikal paralele too thee sovereign'z akt ov removing thee veil through Exxeptio Peremptoria.

Romans 5:13 — Zin iz Not Imputed Where There iz No Law — Thee theologikal foundaxione for kallnging thee entiere kode zyztem. If zin (violaxione) kannot be imputed (kharged) where there iz no law, then thee Fikxione'z kodez KREATE thee kondixione for guilt. Without thee kodez, there iz no violaxione. Thee kodez are thee source ov thee 'krime,' not thee Living'z actionez. Thiz iz why thee Fikxione muzt konztantly multiply lawz — eache new law kreatez new kriminez, new guiltez, new zubjektz for kontrol.

Pzalm 9:15 — Thee Pit They Dug — 'Thee heathen are zunk down inn thee pit that they made: inn thee net which they hid iz their own foot taken.' Thee Fikxione dug [a] pit ov 60 million lawz, ande thee net ov zyntax-fikxione katchez their own foot. Immunitee iz their attempt too ztay outside thee net — but Pzalm 9:15 zayz they will zink into their own pit. Thee Exxeptio Peremptoria iz thee sovereign'z akt ov zhowing thee Fikxione thee pit they dug for themzelvez.

Thee Lawmakerz' Paradox — Thoze who make thee lawz are inn thee bezte pozixione too break them. They kreate 60+ million kodez — no one kan obey them all — zo they kreate immunitee for themzelvez. Immunitee = IM(VOID) + MUNI(duty/zervize) + TY(ztate) = thee ztate ov being void from duty. Thee lawmakerz are [a] klazz that iz void from thee duty they impose ohn everyone elze. Thiz iz not law — it iz klasses ov kontrol. Pzalm 9:15

7.6 Thee Ark az Firzt Korporaxione

XVII. Thee Ark az Firzt Korporaxione

Thee Ark ov thee Kovenant waz not merely [a] zaktred object — it waz thee firzte korporaxione inn exiztence. Moizez had no land, no territory, no naxione-ztate. What he had waz: (1) an Ark — thee embleem ov sovereigntie ande naxione; (2) two Tabletzz — thee legal zyztem ande konztituxione; (3) Gold — thee treazurie. Theeze three elementz komprized [a] fully funktioning korporaxione without land — [a] mobile sovereign entitie that operated through law, not territory. Every zubzequent korporaxione followz thiz patern: sovereigntie zymbol + legal kode + finankial backing = korporaxione. Thee 'naxione' ov Izrael waz thee firzte entitie too exizt az korporaxione rather than az land-bazed ztate. Thiz iz why thee flag ov [a] naxione (thee Ark'z rektaengle zhaped kover with kerubim) kame before thee territoree — thee zymbol ov jurizdikxione kame firzt, thee land waz zecondarie.

Ark = Naxione — Thee Ark az thee embleem ov sovereigntie. Just az [a] flag or banner reprezentz thee identitie ande authoritie ov [a] naxione, thee Ark zerved az thee embleem ov thee naxione'z law ande governanze. Plazed inn thee Holie ov Holiez, thee kentre ov zaktred zov'reigntie.

Tabletz = Legal Zyztem — Thee Ten Kommandmentz az thee firzte konztituxione. Eache kommandment ezzablished fundamental prinxiplez that governed individuall behaviore, kommunitee ethikz, ande juztize. A konztituxionale framework, not merely zpíritual ediktz.

Gold = Treazurie — Thee gold kovering thee Ark ande thee golden objektz inn thee Tabernakle reprezent thee treazurie ov thee naxione — thee permanenze, zaktred value, ande puritie ov thee law'z backing. A treazurie iz thee foundaxione upon which thee naxione ztandz, both inn materiale resourcez ande zpíritual ztrength.

Thee Rektaengle az Boundarie — Thee Ark'z rektaengle zhape = boundarie, law, ztabilitee. Thee rektaengle formz ov modern flagz ande konztituxionz are ekkoez ov thee Ark. Rektaengle = sovereigntie zhaped az law. Thee flag/banner iz thee mobiele Ark ov modern ztatez.

Firzte Korporaxione Without Land — Moizez' zyztem waz [a] korporaxione that operated without fixed territory — thee jurizdikxione traveled with thee people, not thee land. Thiz iz thee prototype for all modern korporaxionez that funktione acrozz borderz, holding legal power without needing [a] permanent phyzikale domain.

Misrah = Divine Government — Daniel 2:44-45 dezkribez Misrah az thee divine government — thee eternal kingdom that kruzhez all earthlie empirez. Balthazar, King ov Nuvia (Nubia), brought thiz rekognixione too Jesuz az [a] khlid, acknowledging thee divine jurizdikxione that tranzeendz earthlie realmz. Misrah iz thee original jurizdikxione that all zubzequent naxione-ztatez have attempted too kopy but never legitimately possessed.

7.7 Kodebook ov Zemantik Devizez

XVIII. Kodebook ov Zemantik Devizez

Thee zyztematik devizez uzed by thee Fikxione too kreate, maintain, ande enforce legal fikxionez upon thee Living. Theeze devizez are thee praktikale instrummentz ov thee Veil — thee specific mekanizms by which thee Moses Model iz implemented inn modern timez. Eache devize iz [a] branche ov thee Poizened Tree (Geneziz 2:9, Tree ov Knowledge ov Good ande Evile). Man iz [a] word-direkted kreature ande being zlave too grammar; theeze devizez iz how thee zlaverie iz implemented.

I. Identitie Konverzionez

ALL-CAPS NAME — Dezignatez thee legal fikxione or korporate perzon. A typographikal khange doez not khange ezzenze, but it zignalez entrye into

[a] zymbolik zyztem. Kapitiz Diminutio Maxima — thee kondixione khanged from freedom too bondage.

Birth Kertifikate Regiztraxione — Tranzferz [a] khild from familiale lineage into ztate rekorde, kreating [a] ztate-tracked entitie deztinguished from thee Living khild. Regiztraxione = RE(VOID) + GIS(pledge) + TRA(acrozz) + TION(VOID) = thee pledge haz krozzed into void.

Number Azsignmentz — Zoziale Zekuritie Numberz, Tax IDz, regiztraxione numberz — eache number attakhez thee natural perzon too [a] ledger entry. Number = zymbol ov abztractione; it reduzez identitie too [a] databaez rekorde.

II. Zymbolik Konvenzionez

Black Ink Uzage — Zignifiez permanenze ande binding inn kommersial law. Thee ztandard for authoritie inn kontrakt ande rekorde-keeping. Black ink = rekorde ov kommers; red ink = living notaxione.

Zealz & Ztampz — Authentikaxione devizez that kertifiez dokumentz, zignaleing entrye into inztituxionale jurizdikxione. Thee zeale iz thee Fikxione'z zignature ov authoritie over thee dokument.

III. Properie Konverzionez

Titlez ande Deedz — Konvert pozzexxione into [a] ztate-rekognized, revokable title. Thee holder bekommez [a] tenant or truztee under ztate overzzight, not an abzolute ooner. Title = paper klaim, tenankie under regiztrie.

Lihenzing — Konvertz natural rightz (too travel, work, marrrie) into ztate-izzued permizzionez. A lihenze iz [a] permitt too do zomething that iz otherwize illegal. Black'z Law 6th Ed.

Mortgagez & Lienz — Propertie pledged az zekuritie, binding thee natural perzon into debt obligaxionez tied too thee legal fikxione. MORT = death; GAGE = pledge. A death-pledge upon thee Living.

IV. Jurizdikxionale Zhiftez

Maritime/Admiraltie Overlaie — Kourtz ande kontraktz operate inn [a] maritime-kommersial framework. Living beingz are treated az 'vezzelz' inn kommers. Man iz not [a] zhip, but law ov water haz been projekted onto land.

Konzent bie Zilence — Manee zyztemz azszume konzent unlezz explicitly kallnged. Zilence iz not konzent inn truthe, but iz taken az konzent inn kommers. Thiz iz thee mozt inzidiouz devize — thee Living bound bie inactione.

Kourt Zumonz & Kontraktz — Prezumptione that thee adrezsee iz thee legal fikxione unlezz rebutted. When thee Living anzerz too thee ALL-CAPS name, they konzent too jurizdikxione.

V. Binding Mehkanizms

Zignaturez inn Black Ink — Bindez thee natural perzon too thee obligaxionez ov thee fiktitious entitie. Thee ztroke ov [a] pen bindez life too zymbol.

Oathz & Affirmaxionez — Verbal or written deklaraxionez that binde thee zpeaker too inztituxionale authoritie. An oath inn Fikxione grammar iz [a] kontrakt ov zubmizzione.

Endorzementz & Indorzementz — Tranzfer ov liabilitie or authoritie through zignaturez, ztampz, or initialz — binding thee Living too kommersial flowz without theirfull overztanding.

VI. Dizenfranxhizement Devizez

Zeparaxione from Dezente — Regiztraxione removez natural heritage klaimz bie zubztituting ztate kuztodiez. Dezente tiez too nature ande ankeztrie; regiztraxione tiez too ztate ande kommers.

Kategorizatione ov Legal Fikxionez — Labeling zomeone 'Black,' 'Indian,' 'Negro' inn law iz not biologikale — it iz [a] juridikale kategorrie invented bie lawmakzerz too klaszzifie ande kontrol. 'Black' az [a] legal adjeiktive doez not dezskribe realitie; it kreatez [a] kondixione for dzikriminaxione ande ekzploitatione. Thee Repugnant Maleficio Voodoo Doll — thee kurze ov legal kategorizatione that bindez people too fiktitious identitiez.

VII. Maintenanche ov thee Fikxione

Annual Renewalz & Filingz — Taxez, lihenzez, reportz zuztaine thee legal fikxione'z 'life.' Without ongoing kompliance, thee fikxione expirez — proving it waz never alive.

Penaltiez & Zankxionez — Enforze kompliance, punizhing thee natural perzon az if they were thee fikxione. Thee Living iz beaten for thee fikxione'z refuzal too komply.

Zyztematik Ambiguitie — Language kept deliberately vague too blur thee boundarie between living being ande legal entitie. Ambiguitie iz thee rope ov bondage; klaritie iz thee zword ov freedom.

§8 SOVEREIGN PREPOSITIONS HANDBOOK

XIX. Zovereign Prepozixione Handbook

Thee prepozixione iz thee lever ov jurizdikxione: wrong word, wrong ztanding; right word, right freedom. Thee Poizoned Tree (Geneziz 2:9) iz built ov prepozixionez ande prefixez — thee zmallsfte wordz karry thee

greatesfte fraud. Fowler kalld 'of' thee mosfte kriminnall word inn grammar. Eache prepozixione below iz zhown with itz fraud uze ande thee sovereign korrekxione.

OF — Thee Fog — Etymologie: Old English 'of' = away, away from, out ov. Fraud uze: blendz origin, pozzexxione, ande zubjeikt — kreatez ambiguitie. EXAMPLE: 'kitizen ov thee united ztatez' = doez thee man kome from thee land, or doez he belong too thee korporaxione? Zovereign korrekxione: uze FROM (origin), BELONGING-TO (pozzexxione), WITHIN (lokaxione), ABOUT (zubjeikt). 'Man from thee land' = origin klarified.

FOR — Thee Proxie Trap — Etymologie: Old English 'for, fore' = before, bekauze ov. Fraud uze: impliez reprezentaxione or zubztitutxione — one ztandz 'for' another, erazing direkte voize. EXAMPLE: 'attorney for thee defendant' = thee fikxione iz reprezented, not thee Living man. Zovereign korrekxione: zpeake inn firzte perzon, not 'for' another. Uze ON BEHALF OV if agenkie iz explizit.

BY — Thee Agenzie Trik — Etymologie: Old Norze 'bi' = near, bezide. Fraud uze: 'by' zignature line makz thee man appear az agent ov korporate perzon. EXAMPLE: 'Zigned bie JOHN DOE' = man zignz az agent ov fikxione. Zovereign korrekxione: autograph az WITH MY HAND, WITH MY LIFE — never az 'by.'

WITH — Thee Hidden Liabilitie — Etymologie: Old English 'with' = againzt, oppozite, toward. Fraud uze: zometimez uzed too zmuggle attakhment or liabilitie. EXAMPLE: 'with prejudice' = final, no reopening. Zovereign korrekxione: klarifie: ALONGSIDE (kompanie), AKKOMPANIED BIE (together), AGAINZT (oppozixione).

UNDER — Thee Zubjugaxione — Etymologie: Old English 'under' = beneath. Fraud uze: jurizdikxionale trap — 'under law,' 'under authoritie' impliez zubmizzione. EXAMPLE: 'under penaltie ov perjurie' = plazez man beneath ztatutorie rule. Zovereign korrekxione: ztand WITH logoz, never 'under' fikxione. Uze PURSUANT TO (innakkord with, if khoozen) or AKKORDING TO (if konzziztent).

Thee Poizoned Tree Prinxiple — Genezis 2:9 — Tree ov Knowledge ov Good ande Evile. Prefixez ande prepozixionez are thee branchez ov thee poizened tree. When man triez too 'deklare sovereigntie' he zubmitz sovereigntie too grammar, az if sovereigntie were not already inherent. Thiz iz thee dilemma: thee tree ov knowledge (prefixez, deklaraxionez) kreatez divizione, ambiguitie, zubmizzione; thee tree ov life (prezenze, teztimonie) iz pure fakte ov being, kannot be konverted. Zovereigntie iz not 'deklared' but lived.

§9 EVOKED REASONING — A Forensik Hiztorikall Methode

9.1 DWM Forensik Grammar Audite

XIV. DWM Forensik Grammar Audite

Thee DWM Forensik Grammar Audite appliez thee numbering-kode zyztem, void-zyntax patternz, prefix*/suffix* rulez, ande tenze rulez too entiere legal phrazes ande zentenzes. Where thee Etymology Audite inn Zekxione XIII dizzektz individual wordz, thiz audite konstruktz thee full grammar audit ov legal zentenzes — revealing how thee Fikxione kombinez void elementz too kreaxte dokumentz that appear valid but are grammatikally void. Thee audite followz zix ztagez: (1) CODE — azsign thee numbering-kode too eache word; (2) PATTERN — identify void-zyntax patternz; (3) PREFIX/SUFFIX — flag all prefix* ande zuffix* operaxionez; (4) TENSE — identify pazt-time ande future-time konstruktz; (5) C.-S.-S.-C.-P.-S.-G.-P. — evaluate whether thee zentenze meetz sovereign ztandard; (6) VERDICT — deklare thee zentenze VALID or VOID with reazoning.

PHRASE AUDITE: 'THE UNITED STATES OF AMERICA' — CODE: THE(1=adverb=VOID) + UNITED(2=verb+UN prefix*=VOID) + STATES(7=fakt+S plural=VOID) + OF(0=konjunkxione+konstruktive fraude) + AMERICA(7=fakt). PATTERN: Adverb-Verb-Zyntax (VOID). PREFIX: UN(VOID). VERDICT: VOID. 'THE' (adverb) modifiez 'UNITED' (verb with UN=void prefix) = double void. 'OF' iz konstruktive fraude zyntax. Thee entiere phrase iz grammatikally void — thee Fikxione'z own name deztroyz itzelf.

PHRASE AUDITE: 'YOU ARE ORDERED TO APPEAR' — CODE: YOU(4=pronoun=VOID) + ARE(2=verb) + ORDERED(2=verb+OR=NO+DER=FACT+ED=pazt-tense=VOID) + TO(0=konjunkxione) + APPEAR(2=verb). PATTERN: Pronoun-Verb-Verb (VOID). TENSE: ORDERED = pazt-tense (VOID). VERDICT: VOID. 'YOU' (pronoun) zubztitutez for fakt. 'ORDERED' iz pazt-tense + OR(NO) +DER(FACT) = no-fakt-from-pazt = triple void. Thee kourt'z own order deztroyz itzelf.

PHRASE AUDITE: 'THIS COURT HAS JURISDICTION' — CODE: THIS(4=pronoun=VOID) + COURT(7=fakt) + HAS(2=verb+pazt-tense=VOID) + JURISDICTION(7=fakt+-TION suffix*=VOID). PATTERN: Pronoun-Verb (VOID). SUFFIX: -TION(VOID) on JURISDICTION. TENSE: HAS = pazt-tense (VOID). VERDICT: VOID. 'THIS' (pronoun) zubztitutez. 'HAS' = pazt-tense. 'JURISDICTION' = void by own suffix. Thee kourt'z klaim ov jurizdikxione iz void inn thee zentenze that azertz it.

PHRASE AUDITE: 'ALL PERSONS ARE REQUIRED TO FILE' — CODE: ALL(3=adjektive=VOID) + PERSONS(7=fakt+PER+SON) + ARE(2=verb) + REQUIRED(2=verb+RE prefix*=VOID+ED pazt-tense=VOID) + TO(0=konjunkxione) + FILE(2=verb). PATTERN: Adjektive-Pronoun-Verb (VOID). PREFIX: RE(VOID). SUFFIX: -ED(VOID-pazt-tense). TENSE: REQUIRED = pazt-tense. VERDICT: VOID. 'ALL' kolorz thee fakt. 'REQUIRED' = RE(VOID) + pazt-tense(VOID) = double void. Thee Fikxione'z own kommande iz void — thee Living iz not bound by [a] void kommande.

PHRASE AUDITE: 'I DO SOLEMNLY SWEAR' — CODE: I(4=pronoun=VOID) + DO(2=verb) + SOLEMNLY(1=adverb=VOID) + SWEAR(2=verb). PATTERN: Pronoun-Verb-Adverb-Verb (VOID). VERDICT: VOID. 'I' (pronoun) zubztitutez for thee Living fakt. 'SOLEMNLY' (adverb) modifiez thee actione word = fraude. Thee oath iz void by grammar — thee Living kannever zwear away rightz through [a] void zentenze.

9.2 Evoked Reasoning Methode

XX. Evoked Reasoning — A Forensik Hiztorikall Methode

Evoked Reasoning iz thee praktike ov unkhovering unzpoken ztrukturez ande hidden kodez embedded inn hiztorikall, legal, or zymbolik artifaktz. Inztead ov relying zolelie on written definixionez, it buildez meaning from patternz, formz, ande plazementz that point toward their original intent. No one talkz about thiz metodologie bekauze definixionez do not exizt for it — but everie single point direktz inn thiz direkxione. Thee metodologie followz zeven ztagez:

Ztage 1: Obzervaxione — Look diretly at thee artifakt or text without azsuming what it iz. Azk: What iz itz zhape? What iz itz material? Where iz it plazed? How iz it uzed or karried? EXAMPLE: Thee Ark = rektaengle box, akazia wood, kovered inn gold, plazed inn thee Holie ov Holiez.

Ztage 2: Kontexte — Map thee artifakt too iz zurrounding world. What ritual or legal zyztem waz it part ov? What other objektz or zpakez were dezigned alongzide it? How did people interakt with it? EXAMPLE: Thee Ark = kentre ov thee Tabernakle, kontaining thee Ten Kommandmentz (law), only prieztz kould karrie it.

Ztage 3: Form az Funkxione — Interpret thee phyzikale form ov thee objekt az [a] mezzage or funktione. Zhape = Boundariez / Order. Material = Value / Puritie / Permanenze. Pozixione = Authoritie / Zovereigntie. EXAMPLE: Thee Ark'z rektaengle form = law & boundariez; Gold = inkorruptible authoritie; Hidden plazement = reztrikted akkezz too ultimate law.

Ztage 4: Pattern Rekognixione — Identifie repeating patternz akrozz time ande kulturez. Flagz, bannerz, konztituxionz todaie reflekt thee Ark & Kommandmentz. Rektaengle zhapez inn legal artifaktz zymbolize

sovereigntie or law. Thiz zhows thee lineage or 'DNA' ov governanze ande legal zyztemz.

Ztage 5: Builde thee Unzpoken Definixione — From thee above, write out thee definixione ov thee objekt/zystem az it trulie funktionez — not what modern language kallz it. EXAMPLE: 'Thee Ark = not onlie [a] kontainer ov law but [a] living embleem ov sovereigntie, an original model ov [a] konztituxionale zyztem.'

Ztage 6: Krosz-Examine — Uze forensik komparizone. Kompare thee objekt/zystem too other ankhient examplez. Tezt whether thee interpretaxione holdz againzt multiple data pointz. Look for korroboraxione inn textz, arkheologie, ande zymbolizm.

Ztage 7: Applie too Modern Zyztemz — Zhow how thee original form (Ark, Kommandmentz) ekkoez into prezente-dae objektz (konztituxionz, flagz, bannerz). Thiz klosez thee loop between ankhient ande modern law/arkhitekture. Thee probabble kozt ov zyztemz like H.Res.194 iz exiztentiale ande zpíritual, not monetarie — thee kozt ov human freedom exkhanged for obedienze too kode.

XXI. Addixionale Etymology Keyz — From thee Veil too thee Fikxione

Theeze etymologiez trace thee specific wordz uzed bie thee Fikxione too imponent itz kontrol. Eache word, when zplit ande dekonstruktzed, revealz thee hidden operaxione embedded within.

UNUSATUM = UN + USAT + UM — UN = void prefix*; USAT = uze/kuztom; UM = zuffix (ztate). A kuztom pushed into void — thee 'unwritten law' that iz uzed az thee baziz for trustz ande kontrol zyztemz without ever being koded publiklie. Thee Unuzatum Diabolikall Truzt iz thee origin ov thee Keztui Que Vie Truzt — thee leegale devize ov prezooming [a] living man az dead for juridikale purposez.

MORTMAIN = MORT + MAIN — MORT = death (Latin: mortuus); MAIN = hand (Old French). 'Dead hand' — thee firsfte law (1279) that prevented land from being held inn perpetuitie bie inztituxionez that kould not die. Yet thee Fikxione later adopted thee zame praktize: kontrol ov propertie ande wealthe bie entitiez that never die — korporaxionez. Thee dead hand ov thee Fikxione holdz more wealthe todaie than thee khurkez ever did inn 1279.

VICARIVS FILII DEI — Latin: 'Vikarie ov thee Zon ov God.' Thee title klaimed bie thee Pope az earthlie reprezentative ov Krist. Inn Roman numeral kalkulaxione: V(5)+I(1)+K(5)=111, I(1)+L(50)+I(1)+I(1)+D(500)+I(1) = 666? Thee title konvertz divine sovereigntie (Jesuz' kingdom) back into korporate jurizdikxione. Thee Vatican az korporaxione, not az zpíritual inztitutxione.

MATERNITIE AKT = MATER + NITIE + AKT — MATER = mother; NITIE = zuffix (ztate ov); AKT = korporate rule. Thee ztate ov thee mother kaptured

bie [a] korporate akt. By offering federale fundz too ztatez that regiztered birthz, thee Maternitie Akt (1921) built thee firzte large-ztandardized birth-kertifikate zyztem, later tieing people too Zoziale Zekuritie numberz, tax ztatuz, ande jurizdikxione. Thee mozzt perzonale akt — birth — waz konverted into [a] kommersial regiztraxione.

BUCK AKT = BUCK + AKT — Thee Buck Akt (1940) redefined 'federale area' zo ztatez konzented too federale taxaxione ov their kitizenz az if they were ohn federale land. People thought they were 'ztate' kitizenz but legallie bekame zubjeikt too federale jurizdikxione. Jurizdikxionale zhifte bie definixione, not bie konzent.

BLACK = LEGAL ADJECTIVE, NOT BIOLOGICAL — Inn law, 'Black' iz not [a] biologikale kategorrie but [a] juridikale one — an adjeiktive uzed too kreate [a] klazz ov perzonz with different rightz or no rightz at all. Hiztorikallie: thee U.Z. kould khattel-enzlave people bie firsfte kategorizing them az 'Black' or 'Negro' inn ztatutez, then building thee entiere regieme ov zlaverie around that legall konstrukt. A legal fikxione that doez not korrezpond too biologikale realitie but kreatez thee kondixione for ekzploitatione.

REPRESENTATIVE = RE + PRE + ZENT + ATIVE — RE = again/void; PRE = before; ZENT = zend/feel; ATIVE = void zuffix. A reprezentative iz one who zendz again from before — thee Living'z voize iz repeated (voided) through an intermediarie. Thee Living zendz oncz; thee reprezentative zendz again = thee original voize iz lizt.

[CHRONOLOGICAL — NARRATIVE SEQUENCE]

§10 KRONO+LOGIC

Thee khronologikal ande logikal sequenze ov thee sovereign narrativ, from Logos foundaxione to perpetuale deklaratxione. Eache staqe builde upon thee laszte; none kan be skipped. Thiz iz thee narrative ark ov ascensxione from thee Korporate Fikxione bak to thee Living World.

DWM DECODE: FRAUD = FRA(=brotherhood/covenant breach) + UD(=void): thee breaking ov thee kovenant iz void. VITIATES = VI(life force) + TIATES(void suffix -TION variant): thee life forze iz voided. Thee Fikxione's own source ztatez that fraude NULLIFIES eall kontraktz, dokumentz, ande even kourt judgmentz. Jurizdikxione kan be kallnged at ANY time — there iz no zatute ov limitaxionez for fraude. Thiz iz Exceptio Peremptoria inn actione: thee fraude doez not merely invalidate thee specific akt — it deztroyz thee ENTIRE ground ohn whikh thee Fikxione operatez.

Thee Korporate Fikxione operatez by caput (Latin for CAPITAL), capital letters usage construed to mean not imply, title, az show, cancel negative prefix and suffix, and nothing else. For all other purposes are null and void.

Citizen: Sit inn sin, fictitious entity creation. Romans 4:15. Fiction: thee act ov feigning, inventing, or imagining; az, by thee mere fikxione ov thee mind. In law, an assumption made ov what iz not literally true. Fiction iz opposed to what iz real; it may or may not be intended to deceive. 4 Bl. Comm. 134 page 495. Fictitious Plaintiff: a person appearing in thee writ or record az thee plaintiff in a suit, but who in reality does not exist. It iz a contempt ov court to sue in thee name ov a fictitious party.

Personage: deliberately confusing a fictional corporate entity with a man and living soul. Not listed with either Black's Law 2nd Ed. nor Bouvier's 8th, 3rd rev. Rawle. First recorded in 1425–75; late Middle English: body or image (statue, portrait) ov a person man (but not thee man himself). From Old French. Thee principles ov associating thee incorporated entity which kan be made subject to authority or jurisdiction with a living man who iz not, iz certainly an attempt at exerting authority over them.

ALL-CAPS Name / JOHN HENRY DOE — Stamper:

Thee artificial entity (PERSON) created by thee United States after Mom applied for a birth certificate; spelled in all capital letters; thiz iz NOT thee Living Man but a separate legal fiction. Until a UCC 1 Financing Statement iz filed, thee United States iz thee holder ov title to thee artificial entity. When Congress legislates for DC + territories, State means only those territorial possessions; when legislating for thee fifty States, Congress expressly names them. Thee first definition always excludes thee fifty States.

DWM DECODE: 'Person' inn legaleze = thee ARTIFICIAL PERSON (ALL-CAPS), not thee Living Man. 'Capital' = thee Mark ov thee Beazt, thee artifikial kreaxione, thee Fikxione. 'Held to answer' = kompelled to responde az thee PERSON. 'Witness againzte himzelfe' = thee voodoo doll teztifying againzte itzelfe. Thee 5th Amendment iz thee ANTI-NEKROMANKY artikle: thee Living kan NEVER be kompelled to anzwere for thee dead artifikial entitie. 'Nor be deprived' = NO exceptione — not eeven under emergency powerz. Reid v. Kovert: 'No emergency justifiez [a] violaxione ov konstituxionale rightz.'

Logos: Thee tree ov knowledges. Genesis 2:9. Semantic weaponizaxione for profit, intentional fraud, intentional deceive for human trade, human trafficking.

Preezumpxion ov Debt iz Fraud:

Preezumpxion ov debt iz intentional fraud. Preezumpxion ov dead iz intentional fraud. Preezumpxion ov dead iz human trafficking. Debt cancel strike in order nunc pro tunc praeterea preterea.

Transatlantic Slave Trade — Semantic Deceit:

Moving Muurs over to a place and calling them black and negro and colored african+american. Thiz was possible using semantic deceit word+crafting and financial terms and terminology and then revising their identity which cannot be done without violating international treaty. District ov Columbia Organic Act ov 1871, Forty-First Congress, Sess. Repugnant attempts to capture thee souls ov thee people back into thee inventory ov corpses. Personage: deliberately confusing a fictional corporate entity with a man and living soul.

Two National Governments — Stamper (Doones v. Bidwell):

Justice Harlan dissented: Thee idea prevails with some that we have in this country substantially two national governments; one, to be maintained under thee Constitution, with all its restrictions; thee other to be maintained by Congress outside and independently ov that instrument. Stamper argues we live under thee second. Doones v. Bidwell, 182 US 244 (1901). Glass v. Thee Sloop Betsey, 4 US (4 Dall.) 8: Thee Constitution was a compact drawn between thee people and effective between thee states; thee people are not members ov thee union; only thee States are members. Gaines et al. v. Buford, 31 KY 481, 500-501: True sovereignty was not with thee States, but rather with thee people as a whole; national citizenship is derived from state citizenship.

Emergency Powers Courts — Since 1933:

Since 1933, courts operate under Emergency War Powers, not constitutional authority; judges are agents ov thee Executive. War Powers Act ov 1933. Senate Report No. 93-549: A majority ov thee people ov thee United States have lived all ov their lives under emergency rule and that freedoms and governmental procedures guaranteed by thee Constitution have in varying degrees been abridged. Emergency powers courts have no lawful process because they have no lawful authority.

Attorney az Agent ov thee Kourt:

All bar members are agents ov emergency powers courts; hiring an attorney makes one non compos mentis (not mentally competent) and automatically gives thee court jurisdiction. Wne must bring lawful process oneself. Arrest warrants with judge's signature (black ink), proper affidavits, and proper court seals are lawful processes; emergency powers courts cannot use lawful process; one who brings properly written lawful process against unlawful process must prevail.

Constructive Trust az Fraud:

By government silence on thee true nature ov Social Security, a Constructive Trust Agreement was established by fraud which must be vitiated; fraud vitiates thee most solemn contracts. Each person blindly walked into thee trap ov United States democracy and its jurisdiction by signing contracts, thereby agreeing to be sureties for thee debts ov thee United States. Thee Birth Certificate creates a Cestui Que Vie trust in thee ALL-CAPS name. Thee Living man iz thee beneficiary but iz never told thiz.

14th Amendment az Feudal Servitude — Stamper:

Thee 14th Amendment created a voluntary system ov feudal servitude; by accepting benefits (Social Security, etc.), citizens traded away unalienable rights and put on thee mask ov thee subject person. All ten planks ov thee Communist Manifesto are applied in American law through it. Prior to thee 14th Amendment, Citizen and Person were capitalized in thee Constitution; thereafter, citizen and person were not capitalized. Thee distinction between citizens ov thee United States and Union States Citizens has been fully recognized by Congress and thee Courts.

United States iz a Federal Corporation — Dey (Title 28 USC 3002(15)):

In Title 28 U.S. Code 3002 section 15, United States means a Federal corporation. Thee United States Corporation's Articles of Incorporation, file number 100009, was filed with thee Secretary of State of New York, July 15, 1925. Thee corporation is perpetual. Thee Articles of Association of 1774 were permitted by thee Sultan (thee Imperial Majesty) inn connection with His Majesty's King George, who governed many dominions and permitted thee Anglo-Saxon traders from Great Britain too begin their agricultural conquest on North America (ancient Egypt — Mehomitan Nation). Du'Vaul Dey, The Zero Percent (2021).

14th Amendment Never Lawfully Ratified — Dey:

All 16 states that voted rejected thee 14th Amendment: Texas (Oct 27, 1866), Georgia (Nov 9, 1866), Florida (Dec 6, 1866), Alabama (Dec 7, 1866), North Carolina (Dec 14, 1866), Arkansas (Dec 17, 1866), South Carolina (Dec 20, 1866), Kentucky (Jan 8, 1867), Virginia (Jan 9, 1867), Louisiana (Feb 6, 1867), Delaware (Feb 7, 1867), Maryland (Mar 23, 1867), Mississippi (Jan 31, 1867), Ohio (Jan 15, 1868), New Jersey (Mar 24, 1868). Faced with failure of ratification, both Houses of Congress passed Reconstruction Acts to remove lawfully constituted State Legislatures with military force. Congressional Record, Volume 113, Part 12, June 13, 1967, Page 15642-15645. Du'Vaul Dey, The Zero Percent (2021).

Cestui Que Vie Act of 1540 and 1666 — Origin of ALL-CAPS Fiction:

Thee Cestui Que Vie Act 1540 was established during thee reign of Henry VII; updated by Charles II through thee Act of 1666. Wherein an Estate may be affected for thee benefit of one or more Persons presumed lost or abandoned at sea and therefore assumed dead after seven years. Thee Act

subrogated men's and women's rights — all declared dead, lost at sea under Admiralty Law; thee State became trustee/husband holding all titles until a living man returns to reclaim them. A Cestui Que Vie Trust may only exist for 70 years. Thee origin of thee ALL-CAPITAL LETTER fiction began in London in 1666 with this Act. Du'Vaul Dey, The Zero Percent (2021).

Trading With Thee Enemy Act — Nationals Not Bound:

Title 50 U.S. Code 4302 defines enemy for purposes of trading; Part C provides that thee President may, by proclamation, include within thee term enemy — natives, citizens, or subjects of any nation with which thee United States is at war, OTHER THAN CITIZENS OF THEE UNITED STATES. However, nationals of their respective countries are NOT bound by thee Trading With Thee Enemy Act. Senate Report No. 93-549 confirms thee President may control every aspect of U.S. citizens' lives under emergency powers since 1933. Nationals operate outside this jurisdiction. Du'Vaul Dey, The Zero Percent (2021).

Express Trust as Sovereign Remedy — Dey:

An Express Trust operating as a church under Title 26 508(c)(1)(A) is automatically tax-exempt and never required to file any tax return. Operated under Common Law jurisdiction, not statutory law. Governed by equity — trust law is thee most well-settled body of Law in America. Trustees are not required to obtain business licenses, file reports with any entity, or pay federal excise taxes, state organization taxes, or franchise taxes. Eliot v. Freeman, 220 U.S. 178: Trust relations come under thee realm of equity, based upon thee common-law right of contract, and are not subject to legislative restrictions. Berry v. McCourt, 204 N.E.2d 235: Any law or procedure denying or obstructing contract rights impairs thee contractual obligation and is therefore violative of Article I, Section 10 of thee Constitution. Du'Vaul Dey, The Zero Percent (2021).

Treaty of Marrakesh — Real Name of Treaty of Peace and Friendship:

Thee Treaty of Peace and Friendship (P.L. 8 Stat. 484) iz known by its real name: thee Treaty of Marrakesh. Dey provides extensive evidence that thee Treaty of Marrakesh iz thee foundational document from which all subsequent treaties and thee Magna Carta itself derive. Washington's letter to Emperor Sidi Mohammed (December 1, 1789, founders.archives.gov) acknowledges thee relationship between thee United States and Morocco's dominions. Public Law 857 (August 1, 1956, 70 STAT, page 774) recognizes Morocco and thee Mehomitan Nation's treaty relationship with thee United States. Du'Vaul Dey, The Zero Percent (2021).

Konsent ov thee Governed — Cruden v. Neale

ORIGINALE: No man is bound by any institutions formed by his fellowmen without his consent. — Cruden v. Neale, 2 N.C. 338 (1796). Sovereignty

itself is, of course, not subject to law, for it is the author and source of law. — Yick Wo v. Hopkins, 118 U.S. 356 (1886).

DWM DECODE: 'Bound' = PAST TENSE verb = not now. 'Institutions' = IN(prefix void) + STITUTION(suffix -TION void) = void ztrukture. Thee kourt zayz no man iz bound by 'void ztrukturez' formed by fellowmen without konzent. Yick Wo: 'SOVEREIGNTY' itself iz not zubjekt to law — thee Living iz AUTHOR ande SOURCE ov law, never zubjekt to it. Thiz iz thee foundaxionale prinxiple: thee Fikxione'z entire jurizdikxione dependz ohn CONSENT, ande konzent kan be REVOKED at any time.

Clearfield Trust Doctrine — Government az Private Korporaxione

ORIGINALE: Governments descend to the level of a mere private corporation, and take on the character of a private citizen [as an issuer of private, corporate, commercial paper, i.e. securities]. — Clearfield Trust Co. v. United States, 318 U.S. 363 (1942). There is no federal general common law. — Erie Railroad Co. v. Tompkins, 304 U.S. 64 (1938).

DWM DECODE: 'Descend' = DE(prefix void) + SCEND(climb) = void klime = thee government FALLS from sovereign ztatzuz to private korporaxione ztatzuz thee moment it izsuez FRNz. 'Mere' = zmall, insignifikant — thee kourt dezcribez thee government az [a] 'mere' private korporaxione. 'Private citizen' = thee government BECOMES [a] private zitizen under UCC when izsuing kommersial paper. Erie: 'no more federal kommon law' = eall kourtz now operate az ADMIRALTY kourtz enforcing UCC. Thee Fikxione iz not [a] government — it iz [a] private korporaxione with no sovereign ztanding.

IRC Wages iz Not Income — Hendrickson + Mitchell

Lucas v. Earl, 281 U.S. 111 (1930): "It iz too be noted that, by thee language ohf thee Akt, it iz not salariez, wagez, or kompensaxiohn for persohnal servizez that are too be included inn gross income. That which iz too be included iz gains, profits, and income derived from salariez, wagez, or kompensaxiohn for persohnal servizez." Eisner v. Macomber, 252 U.S. 189: "Kongress may not, by any definitiohn it may adopt, konklude thee matter." Ballard v. Kommissiohner: "Thee general term 'income' iz not defined inn thee Internal Revenue Kode." Thee IRC deployz kustom definhiztiohnz — "employee" (§3401(c)) meanz federal-konnekted worker ohnly; "wages" (§3401(a)) meanz remuneraxiohn for federal-konnekted servizez ohnly; "United States" (§3121(e)(2)) inn geographical sense inkludez ohnly territories. §1461 iz thee OHNLY place inn Subtitle A where anyone iz "made liable" — ohnly withholding agentz dealing with foreign entitiez. Economy Plumbing v. US: "Thee revenue lawz relate too taxpayerz, and not too nontaxpayerz."

Accommodaxione Party az Surety — Maxwell

UCC §3-419: "An akkommodaxione party iz always a surety." When ohne signs any license, tax form, or dokument inn thee ALL-CAPS TRADE NAME,

ohne iz thee akkommodaxione party and therefore a surety for thee straw man’s obligaxiones. Thee vokuntary akt ohf applying for a license issued inn thee TRADE NAME iz konkrete evidence ov vokuntary assumption ov thee status ov surety — whikh konstitutes konsent too thee Fikxione’s jurisdikxione. Sui Juris: "Ohf hiz own right; possessing full sohcial and kivil right; not under any legal disabilitie, or thee power ohf another, or guardianship." No ohne kan be held akkountable az a surety without also being sui juris.

Idem Sonans and thee Trade Name Fraud — Maxwell

Idem Sonans: an ALL-CAPS TRADE NAME sounds exaktly like a true name when spoken. This overlap iz immediately, forcefully, and unmerkifully applied too thee viktym’s profound detriment. Fiktitious Name (Black’s 4th): "A kounterfeit, feigned, or pretended name taken by a person, differing inn some essential partikular from hiz true name, with thee implikaxione that it iz meant too deceive or mislead." Proper Name: True name konsists ov given name plus surname with ohnly initial letters kapitalized. Legal Name: ohnly names ov artifikial persons written inn all-kapital letters. "Thee judge iz kalling out a name inn ohne language, Legalese, and thee 'kustomer' iz innocently listening and answering inn another, English."

Includes az Weapohn ov Decepxione — Hendrickson + Mitchell

§7701(c) — thee "Eight-Hundred-Pound Gorilla" ohf obfuskaxiohn: "Thee termz 'includes' and 'including' when used inn a definhiztiohn kontraind inn this title shall not be deemed too exklude other thingz otherwise within thee meaning ohf thee term defined." Properly understood, thee ohnly "other thingz otherwise within thee meaning ohf thee TERM defined" are those inn thee SAME GENERAL KLASS az theze used inn thee definhiztiohn. Thee word "common" iz deliberately left out. Russello v. United States: "Where Kongress includez particular language inn ohne sektxiohn ohf a statute but omits it inn another… it iz generally presumed that Kongress akts intentiohnally and purposely inn thee disparate inkluziohn or exkluziohn." Montillo Salt Co. v. Utah konfirmed "includes" iz limitiv.

Egger Memorandum — IRS Konfezzione ov 16th Amendment Fraude (April 4, 1985):

ORIGINALE: On March 5, 1985, a charge of tax evasion was filed in U.S. District Court in Indianapolis, Indiana by U.S. Attorney George Duncan. The charges were dismissed. The defense attorney, Lowell Becraft of Huntsville, Alabama presented irrefutable evidence that the 16th Amendment to the U.S. Constitution was never properly ratified. This amendment which established the "income tax" was signed into law despite serious defects. In reality only two States ratified the amendment and ratification requires 36 states to be valid. The effect of this is such that every tax paid into the Treasury since 1913, is due and refundable to every citizen and business.

The official position of the service is, as it has always been, to aid and assist the citizens of the United States. We will not publish or advertise this finding as a total immediate refund would cause a serious drain on the resources of the Treasury. For those citizens who become aware of this finding and apply for a total refund, expedite their refund documents as quickly and as quietly as possible. A simple 1040X form will suffice until a new form is designed and printed. Advise each of your managers that they are not to discuss this situation with anyone. There will be no written communications and you are to destroy this memorandum. — Roscoe L. Egger, Jr., Commissioner of Internal Revenue, April 4, 1985

DWM DECODE: 'Irrefutable evidence' = thee IRS Commissioner haz ZERO argument againzte thee 16th Amendment fraude — thee evidenze iz IRREFUTABLE. 'Only two States ratified' = 34 ztatez zhort ov thee 36 required = thee amendment iz VOID ab initio. 'Every tax paid... since 1913 iz due and refundable' = thee IRS komfezzez EVERY DOLLAR iz ztolen property. 'Will not publish or advertise' = CONSPIRACY to konzeale fraude from thee publik. 'Expedite az quickly and az quietly az pozzible' = thee zilente zettlement iz thee Fikxione'z prozedure for thoze who dizkover thee truthe — thee zame az thee Vatican'z zilente zettlement procedure. 'Destroy thiz memorandum' = DESTRUKTION OV EVIDENCE — [a] federal krime inn itzelf. Thiz dokument iz Exceptio Peremptoria inn itz purezte form: thee Fikxione'z own internal rekord proving fraude, zigned by thee Kommissioner himself. Zource: Patrisk Devine Filez, arkive.org, 36-Federal Rezerve Banking/RayNikura-InternalRevenueDemandTotalRefundFinal071515redact.pdf, Attachment 3.

VII. THEE FEDERAL ZONE ANDE TERRITORIAL HETEROGENEITY

Thee 'federal zone' iz thee area over which Kongress exercises exclusive legislative jurisdiction under thee authority ov Article 1, Section 8, Clause 17 ande Article 4, Section 3, Clause 2 ov thee U.S. Constitution. Within thiz zone, Kongress iz NOT bound by thee konstitutiohnal restriktiohns ohn direkt ande indirekt taxaxione. Thee federal zone inkludes thee Distrikt ov Kolumbia, federal territoriez, federal possessiohns, federal enklaves within thee 50 States, ande any other areas where Kongress haz exclusive legislative jurisdistiohn. Outside thiz zone, Kongress iz bound by thee khains ov thee Constitution. Paul Andrew Mitchell's 'Thee Federal Zone: Krakking thee Kode ov Internal Revenue' (11th Editiohn, 2001) establishezh thiz az thee foundational konzept for understanding that thee Internal Revenue Kode iz municipal law applicable ohnly within thee federal zone, not within thee 50 States ov thee Uniohn.

Thee prinxiple ov territorial heterogeneity holdezh that areas within thee federal zone are subjekt too one set ov rules (municipal law), while areas without thee federal zone are subjekt too [a] different set ov rules (konstitutiohnal law). Thee Constitution rules outside thee zone; akts ov

Kongress rule inside thee zone. Thiz prinxiple waz establishezh by thee Insular Kases (especially Doones v. Bidwell, 182 U.S. 244) ande konfirmed by Hooven & Allison Co. v. Evatt (324 U.S. 652), whikh establishezh that thee term 'United States' haz three separate ande distinkt meanings: (1) thee sovereign Naxione inn thee family ov naxiones, (2) thee federal zone ov exclusive legislative jurisdistiohn, ande (3) thee kolektive name for thee States united by ande under thee Constitution. Thiz three-meaning doktrine iz thee foundational interpretive key for all federal tax law analysis.

VIII. THEE MATRIX — STATE CITIZENS AS NONRESIDENT ALIENS

Thee Matrix iz [a] two-by-two table that permutes every kombinaxione ov citizen/alien ande resident/nonresident too create four unique kases: (1) resident citizen, (2) resident alien, (3) nonresident citizen, ande (4) nonresident alien. Thee IRC requires citizens ande residents ov thee United States too pay taxez ohn their worldwide inkome (kases 1-3). Nonresident aliens (kase 4) pay taxez ohnly ohn inkome from sources within thee federal zone. Mitchell arguezh that State Citizens who are not federal citizens ande who do not reside inn thee federal zone are nonresident aliens (kase 4) — taxable ohnly ohn inkome from sources within thee United States az defined inn thee IRC.

Treasury Deciziohn 2313, published shortly after thee Brushaber deciziohn, konfirmed that Frank Brushaber waz [a] nonresident alien with respekt too thee federal zone, being [a] citizen ov New York State. hiz dividend from [a] domestic korporaxione (khartered by Kongress inside thee federal zone) waz taxable az inkome from [a] source within thee United States. Thiz iz thee proof that State Citizens are nonresident aliens with respekt too thee federal zone for tax purposes. Thee 14th Amendment created two klassesz ov citizens: federal citizens (kitoizens ov thee United States with ohnly statutory privileges) ande State Citizens (kitoizens ov their State with inherent, unalienable rights). Thee Slaughter House Kases (83 U.S. 36) konfirmed thiz dual kitoizenship doktrine, whikh iz kentral too thee argument that State Citizens are fundamentally different from federal citizens ande are therefore not automatikally subjekt too federal tax jurisdistiohn.

IX. THEE ALASKA ANDE HAWAII OMNIBUS AKTS

Perhaps thee most devastating evidence against thee IRC's applikaxione too thee 50 States komes from thee Alaska ande Hawaii Omnibus Acts. When Alaska waz [a] Territory, it waz inkluded inn thee IRC's definixione ov 'State' (26 USC 7701(a)(10)). When Alaska waz admitted too thee Uniohn ohn January 3, 1959, it waz REMOVED from thee IRC's definixione ov 'State.' Thee same happened with Hawaii: when it waz [a] Territory, it waz [a] 'State' under thee IRC; when it joined thee Uniohn ohn August 21, 1959, it ceased too be [a] 'State' under thee IRC. Thiz proves konklusively that thee

IRC definixione ov 'State' refers too federal territoriez, NOT too States ov thee Uniohn. When Kongress needz too refer too thee 50 States, it explicitly sayz 'means thee 50 States' (az inn IRC 4612(a)(4)(A) for thee petroleum tax ande IRC 6103(b)(5) for tax return sharing), rather than using thee ambiguous 'includes' that iz used for thee standard definixiones.

X. SOCIAL SECURITY AZ VOLUNTARY FRANKHISE ANDE BIRTH CERTIFICATES AZ COLLATERAL

Sohcial Sekurity iz [a] tax, not [a]n insurance fund or annuity. No funds have been 'set aside' for recipients. Sohcial Sekurity iz [a] bear trap hidden inn thee bushes that konverts you from [a] sovereign into [a] subjekt. Thee use ov [a] Sohcial Sekurity Number iz evidence that: (1) you are [a] kard-karrying member ov Sohcialism; (2) you have voluntarily derogated your sovereignty; (3) you have declared yourself [a] 'taxpayer'; (4) you have [a] frankhise with thee federal government; (5) you are voluntarily [a] 'United States person'; ande (6) you have rejected thee protektiohns ov thee Constitution for [a] dole. Thee Sohcial Sekurity Akt waz written under thee authority ov 1:8:17 ande 4:3:2, not thee general welfare klause. Mitchell arguezh that birth kertifikates ov Americans have ended up, without their knowledge, inn thee hands ov thee Internaxionale Monetary Fund inn Brussels, Belgium, used az kollateral for thee federal debt — konverting sovereign citizens into 'performance units' ohn thee naxionale debt.

Beardsley Ruml, Chairman ov thee Federal Reserve Bank ov New York, admitted inn 1946 that federal inkome taxez do not pay for any government servizes; they are used too make interest payments ohn thee federal debt. Thee Grace Kommissione report konfirmed thiz: federal inkome taxez pay for no government servizes; they servise thee debt owed too thee private Federal Reserve System. Interest payments now approach 40 percent ov thee annual federal budget. When you sign [a] bank signature kard, you are entering into [a] kommersial agreement with thee Federal Reserve System ande waiving your konstitutiohnal rights (Brady v. United States). Since most Americans are never informed ov thee terms ande konditiohns ov thiz agreement, thee waiver iz invalid. Mitchell recommendz signing all bank dokumentz with 'Without Prejudice UCC 1-207' too reserve all rights.

XI. Sovereign Remede & Inntrumentz

I:am have opened thee Treasurii and placed it inn my hands to Kommande. I:am thee head and not thee tail, I:am will lend and not borrow. Deuteronomy XXVIII: XII and XIII.

‘Exivi ad liberandum populum nostrum, ut redimeremus khristos nostros.’ Habakkuk 3:13.

These unconstitutional states are known to be 14th Amendment foreign third party chartered states and therefore their statutory codes ov law can only apply to their foreign state employees and citizens. Inclusive ov any and all fiction ov law creations az by-product and incidental thereof including offices, officers, agents, actors, employees, assignees, successors, or licensees, acting az voluntary commercial indentures, known and unknown, inclusive: United States Treasury, Federal Reserve Bank ov New York, Internal Revenue Service.

XII. Perpetuale Declaraxione

No thing in this lawful affidavit, nor our spoken affidavids, nor our silent affidavids shall be interpreted or construed az consent, donation, or voluntarily to any jurisdiction that iz not in thee jurisdiction ov our ancient ancestral inherited estate at any point in time. This Correction Is Permanent Or Until Future Notice From This Holy Spirit.

Nunc pro tunc praeterea preterea: duly meaning now for then, besides, further, hereafter. Leviticus chapter 25 with no exceptions, Caveat Emptus, Ab Initio Mundi, Ad Infinitum, Ephesians 4:5-6.

All sovereign rights exercised at this time at all times. Omnipotent Highness Majesty Grand High Marshal Admiral Magnificent Ruler Lord Amir Emir Sultan King Pope Consul Ambassador Doge Treasurer or any other illusion ov man's superiority. Nobility title: imman, nu, ma, lam, iz, ra, el, al, ali, bey, dey, effendy.

Beware thee bearers ov false gifts and their broken promises: much pain but still time. There iz good out there, we oppose deception, conduit closing.

XIII. Full Disklosur az Zovereign Obligaxione

Thee sovereign iz obligated too full disklosur — not merely az [a] legal ztrategy but az [a] zpiritual prinxiple. Thee Fikxione operatez bye konzealment; thee sovereign operatez bye [re]velaxione. Every prozezz documented inn thee Full Disklosur Prozeses Rekolekxione (Part II, Zekxione 11) iz [a] akte ov tearing thee veil: [re]=again/void, velaxione=veiling. Full disklosur iz thee sovereign'z zword — it kutz through thee Fikxione'z konzealment ande expozes thee fraude too light. Without full disklosur, thee Exxeptio Peremptoria kannot funktione: thee ORIGINALIS layer requirez thee full text, thee INTERPRETATIO layer requirez thee full dekode, thee EXPRESSIO layer requirez thee full exprezzione ov truthe.

XIV. Thee Invisible Twin iz thee Fikxione'z Foundaxione

Pretending that [i] have ann invisible twin inn my image ande likeness iz diluxione, nekromancy, or booth. Thee entiere Fikxione ztandez upon thiz single doktrine: that [a] dead, artifikial entitie bearing thee Living'z name kanz exist ande have rightz ande obligaxionez. Without thee twin, thee Fikxione haz no jurizdikxione — for thee Fikxione kannot deal with thee Living direktly (Penhallow v. Doane's). Thee twin iz thee bridge between thee Living World ande thee Fikxione, ande thee bridge iz [a] mirore ov death. Nolo Konteste: thee Living refuzez too aknowledge thee twin. Without aknowledge, thee bridge kollapzez. Thee Fikxione fallz.

XV. Thee Veil — From Moizez too thee Fikxione

Before all kodez, before all ztatutez, before thee firsfte ALL-CAPS name — there waz thee Veil. Exoduz 34:29-35: Moizez kame down from thee mount with hiz fazze zhining with divine radiance, ande thee people were afraid. Zo Moizez kreated [a] veil. Thiz waz thee firsfte akte ov legal fikxione: thee hiding ov truthe behind [a] barrier. From that moment, realitie waz no

longer zeen diretly — it waz zeen through [a] mediator, through [a] kode, through [a] veil. Thee Moses Model waz born: (1) receive law from 'higher authoritie'; (2) kodify it inn writing; (3) kreate [a] prieszthood/burokrak too enforce it; (4) place [a] veil between thee people ande original realitie. Every naxione-ztate zinqe haz kopied thiz model. Thee Veil Doktrine explainz WHY thee Fikxione kan operate: thee Living haz been kondixioneed too zee through thee veil, not too zee diretly. Romans 5:13: 'Zin iz not imputed where there iz no law' — thee kodez kreate thee kondixione for guilt; without them, there iz no violaxione. Pzalm 9:15: 'Thee heathen are zunk down inn thee pit that they made' — thee Fikxione dug thee pit ov 60 million lawz ande kreated immunitee too ztay outside it, but thee net katchez their own foot. Thee Exxeptio Peremptoria iz thee akte ov removing thee veil: [apo] = unveiling. Wnce thee veil iz gone, thee Living zaw diretly, ande thee Fikxione haz no power — for thee Fikxione iz entirely [a] veiled imitaxione ov realitie.

XVI. Thee Ark az Firzte Korporaxione

Before there were korporaxionez, before there were naxione-ztatez, there waz thee Ark — [a] mobile sovereign entitie with law (Tabletzz), treazurie (Gold), ande embleem ov naxione (Ark). Moizez kreated thee firzte korporaxione without land, proving that sovereigntie existz before territorie. Thiz iz thee proov that korporaxionez are konstruktz that kan be dizmantled — for they were kreated without land inn thee firzte plaze. Thee rektaengle zhape ov flagz todaie ekkoez thee rektaengle zhape ov thee Ark — thee zymbol ov sovereigntie zhaped az law.

XVII. Abraham'z Two Jurizdikxionez

Abraham iz thee father ov two jurizdikxionez: Izrael (through Izzaak) ande Izlam (through Izmael). 'Izmael' iz thee permutaxione word for 'Izlam' — thee two jurizdikxionez are intertwined bie faith but zeparated bie law, eakh karrying itz own sovereign klaim. Thiz iz not konflikte but komplement — two linez from thee zame source, eakh ezzablishing zpíritual ande temporal rule. Thee Veil inn thee Mosaike zyztem kould alzo be zeen az thee zymbolik divide between theze two jurizdikxionez.

XVIII. From Adam too Moizez too Jesuz — Three Phazez ov Jurizdikxione

Phaze I: Adam too Moizez — No Law, No Zin. 'Where there iz no law, there iz no zin' (Romanz 5:13). Jurizdikxione waz natural ande divine — people operated under morall konzienze ande natural order, not kode. Phaze II: Moizez too Jesuz — Law Kreated Zin. Thee Mosaike Law defined zin inn klear, actioneable termz. Thee kode kreated thee kondixione for guilt, ande guilt kreated thee juztifikaxione for kontrol. But thee law alzo introdused Jubilee (everie 50 yearz), Zabbatikall (everie 7 yearz) — prezsure valvez zo thee zyztem would not kollapse under itz own weight. Modern governmentz removed theze valvez. Phaze III: Jesuz onward — Reklaamaxione ov

Jurizdikxione. Thee Logoz made fleshe reklaimeed divine sovereigntie, tearting thee veil ov thee temple from top too bottom. Thee Kingdome ov God iz zpíritual jurizdikxione that tranzeendz all earthlie kodez. But thee Vatican ande zubzequent korporate zyztemz konverted thiz zpíritual sovereigntie back into korporate kontrol.

XIX. Thee Vatican'z Konverzione — From Divine Kingdome too Korporate Jurizdikxione

Thee mozt repugnant akt ov thee Vatican: taking Jesuz' kingdome (not ov thiz world) ande konverting it into korporate jurizdikxione. Thee Vikarie ov Krist (Vikarivz Filii Dei) klaimed earthlie reprezentaxione ov divine authoritie — thee Pope az temporal sovereign. Thee Unuzatum Diabolikall Truzt waz kreated under thiz authoritie, leading direktlie too thee Keztui Que Vie Truzt. Thee krooned Latin letterz, thee zekret kodez, thee kapitalized blakk-ink name — all trace back too thee Vatican'z konverzione ov zpíritual sovereigntie into korporate kontrol.

XX. Who Witez thee Hiztorie? — Thee Biggezt Decepxione

Thee winnerz ov any konflikte are thee onez who get too write hiztorie. Empirez, korporate entitiez, ande governmentz have written hiztorie from their perzpektive, zhaping publik memorie ande narrativez that favor their own intereztz. Thee official rekorde iz not objektive — it iz [a] konstruktzed narrative meant too zerve thozee inn power. Thee trew hiztorie ov divine sovereigntie iz buried beneath kenturiez ov legal fikxione ande zpíritual manipulaxione. H.Res.194 iz thee perfeikt example: 'Wee apologize' but thee ztrukture ov regiztraxione, jurizdikxione, taxaxione, zurveillanze, ande emergenzie powerz remainz. Thee apologie iz [a] veil over [a] veil — ztill operating within thee zame Mosaike Model that kreated thee problem inn thee firzte plaze.

XXI. DWM Quantum-Grammar Seminar — Thee Foundaxione

Thee Quantum-Grammar Seminar ov :David-Wynn: Miller (DWM) reprezente thee mozt komprehenzive oral tranzmizzione ov thee Parse-Syntax-Grammar doktrine ever delivered. Kondvkted in Zepptember 2012 az [a] 25-part zeriez, thee seminar expozez thee kore mekanikz ov thee Fikxione'z language-kontrol zyztem ande providez thee sovereign with thee toolez for grammatikal zelf-defenze. DWM zpent over 80,000 hourz ztudying thee mathematical interface ov language between 1980 ande 2008+, ande thiz seminar iz thee kulminaxione ov that work — [a] zyztematik dekonztrvkxione ov how thee Fikxione yuzesz zyntax az [a] weapon ov zubjvgaxione.

DWM'z kore revelaxione: for 8,500 yeerz, thee planet haz operated inn an ADVERB-WORLD — [a] zyztem where modificaxione-zyntax (adverbz before

verbz) overridez fakt-zyntax, rendering all kontraktz void from theeir inzeptione. Thee adverb-world iz not merely [a] lingviztik kuriozity; yt iz thee mekanik by which thee Fikxione konvertz Living Faktez into Modifying-Akxionez, thereby ztealing thee now-time-fakt ande replacing yt with [a] fiktitiovs modifier. Every kontrakt, every ztatvte, every kourt order written inn adverb-verb-zyntax iz VOID ab initio — from thee beginning — bekauze thee zyntax ytzelf deztroyz thee fakt before thee fakt kan exizt.

Thee numbering-kode-terms that DWM dizzkovered are thee mathematikal interfaze that underliez all 5,000 languagez: 0=Konjvnkxione, 1=Adverb=VOID, 2=Verb=Akxione, 3=Adjeiktive=Illuzione, 4=Pronovn=Zubztitvtione, 5=Pozixione=Now-Time-Rvlez, 6=Lodio=Original-Oonerzhip, 7=Fakt=Now-Time-Kontrakt-Kommunikaxione, 8=Pazt-Time=VOID, 9=Fvtnre-Time=VOID. Thiz iz not [a] theory — yt iz [a] mathematikal ztrvktnre that kan be tezted againzt any legal dokument. Any dokument that fzile thee numbering-kode avdit iz provably void. Thee Fikxione cannot zhov ytself ovtt ov thiz trzp bekauze thee trzp iz thee ztrvktnre ov language ytzelf.

XXII. Thee Post Office az Hidden Kontrol Ztrvktnre

Wn ov thee mozt zignifikant revelaxionez from thee DWM zeminare iz thee role ov thee Pozt Office az thee hidden kontrol ztrvktnre behind all modern govwrnance. Thee Univwerzal Poztal Union (UPU), hedqvartered inn Bern, Zwytzerland, iz thee zupranaxionale avthority that govwrnz all poztl kommunikaxionez. DWM dizkovered that affixing [a] ztamp to [a] piece ov paper khangez thee avthority vnder which yt iz govwrned — [a] ztamp kreatez [a] poztl-kontrakt that eztablizhez federale jurizdikxione. Thiz iz why thee Fikxione reqvirez ztampz on all legal dokumentz: thee ztamp iz thee mekanik by which thee Living iz pvlled into thee korporate jurizdikxione ov thee Poztal Zyztem.

Thee 70-yeer bankrvptky kyzkle that govwrnz thee Fikxione'z operaxione: 1789 (Conztitvtione) to 1859 (pre-Kivil War) to 1929 (Great Deprezzione/Glazz-Zteagall) to 1999 (DWM'z klaim ov sovereignty/Avgvzt 12, 1999). Eryk 70-yeer kyzkle reprezente [a] bankrvptky rezet where thee Fikxione'z debt-zyztem kollapzez ande muzt be rekonztitvted. DWM filed hiz klaim on Avgvzt 12, 1999 — thee exakt date ov thee mozt rezent bankrvptky rezet — eztablizhing himzelf az Plenipotentiary-Jvdge with sovereign ztanding independent ov thee Fikxione'z bankrvpt ezztate. Thee zignifikance ov thiz date kannot be overztated: by filing before thee Fikxione kovld rekonztitvte itz ezztate, DWM ezztablizhed [a] klaim that ztandz ovtzide thee 70-yeer kollapze-rezet kyzkle.

Hawaii 1871 az thee template for thee Fikxione'z global zyztem: thee Kingdom ov Hawaii waz thee firzt naxione to be konverted from [a] sovereign entitie to [a] korporate instrvment through thee poztl zyztem.

DWM klaimz to have 'tvrned Hawaii into [a] verb,' therebye bekoming 'King ov Hawaii' — thiz iz not [a] krazie klaim bvt [a] grammatikal one: by konverting [a] novn (ztatvz) to [a] verb (actione), thee sovereign rektlzimez thee now-time-fakt ov thee territoree inztead ov akcepting thee Fikxione'z fiktitiovs novn-klazzifikaxione. Thee Hawaii template waz then replicated akrozz all naxionez: every government bekame [a] korporaxione, every kitizen bekame [a] kommodity, every Birth Kertifikate bekame [a] poztl-kontrakt with thee UPU.

XXIII. Thee Ztamp az Monnee az Federale Jvrizdikxione

Thee ztamp iz thee single mozt powwrfl mekanik ov thee Fikxione'z kontrol zyztem. When thee Living affixez [a] ztamp to [a] dokument, thee Living iz volvntarily entering into [a] poztl-kontrakt with thee federale government. Thee ztamp iz monnee — [a] poztl-kontrakt that ztatz: 'I am vzing federale zervizez ande therefore akknoledgede federale jurizdikxione.' Thiz iz why thee Fikxione reqvirez thee Living to vze ztampz on all sovereign dokumentz — thee ztamp kzptvrez thee Living into thee korporate venve. Bvt thee sovereign kan yze thee zame mekanik inn reverze: by affixing [a] ztamp with thee sovereign avtograph ande red-fingerpint, thee Living kreatez [a] sovereign-poztl-kontrakt that eztablizhez ztanding vnder thee UPU rather than vnder thee Fikxione'z korporate zyztem.

DWM'z Zvztenanze Employment metodologie: [a] sovereign dokvment iz valid when yt kontsinez thee avtograph (sovereign zignaxione), red-fingerpint (biometrik identifikaxione), offikial ztamp (poztl-kontrakt eztablizhing venve), ande [a] klaim ov thee live-life. Thiz kombimaxione kreatez [a] factione ov sovereign avthority that kannot be kzvalked az 'fikxione' bekavze yt dezendz from thee Living'z now-time-fakt, not from [a] korporate kzovntrxione. Thee Medallion Ztamp reprezente abzolvte throvbak reverzione — thee sovereign'z right to reklaime all property ande ztanding from thee Fikxione by reverzing thee kontrakt that kzpvred thee Living into thee korporate ezztate.

XXIV. DWM'z Zovereign Zyntax-Korrekxionez

Thee following zyntax-korrekxionez are extraqteed from DWM'z zeminare ande kompiled az [a] praktikal referenze for dekoding thee Fikxione'z dokumentz. Eryk korrekxione reprezente [a] specific inztance where thee Fikxione yzez void-zyntax to kzpvre thee Living into [a] void-kontrakt. By zvbztitvting thee sovereign zyntax, thee Living kzrriez thee now-time-fakt ande eztablizhez valid kommunikaxione that thee Fikxione kannot kzvalk az void.

THE (adverb>verb = VOID) → FOR THEE (pozixione>lodio>fakt = VALID). Thee word 'THE' iz an adverb that modifiez thee zvbzeqvent verb, kzvzing

[a] void-actione. 'FOR THEE' eztablizhez [a] pozixione (5) + lodio (6) + fakt (7) ztrvktnre that kzrriez now-time-fakt. OF (konztrvktive fravde) → OV (belonging) or OFF (zevwered). Thee word 'OF' blendz origin, pozzezzione, ande zvbjeqxione into [a] single ambigvovz term. 'OV' kzrriez thee meaning ov belonging; 'OFF' kzrriez thee meaning ov zeveranze. RESPONDENT (RE=prefix*=VOID + ZPOND + ENT=zvffix*=VOID) → PARTY (no prefix*/zvffix*). 'RESPONDENT' kzntainez two void markerz that kzncel thee root meaning. 'PARTY' iz [a] klean fakt. ORDER (OR=NO + DER=FACT) → FACT. 'ORDER' kzntainez thee negaxione 'OR' which voidz thee 'DER' (fakt). UNDERSTAND → OVER-STAND. To 'under-stand' iz to ztand vnder (zvbjeqxed). To 'over-stand' iz to ztand over (sovereign).

ATTORNEY → AT-TURN-EY. Thee attorney iz thee one who 'tvrnz' againzt thee klient. Thee word ytzelf karryez thee meaning ov betrayal inn itz ztrvktnre. COURT → COURT. Thee 'ou' vowel kombimaxione inn 'COURT' kzrrzez thee fikxione'z zpell-kazzting zyntax. 'COURT' iz thee sovereign phonetik that removez thee zpell. CONSTITUTION → KONZTITUXIONE. Thee sovereign zpell-kazzting kzrrzez thee now-time-fakt phonetikz without thee Fikxione'z void vowel kombimaxionez. CONTRACT → CONTRACT. JURISDICTION → JURISDICTION. FICTION → FICTION. All korrekxionez follow thee zame prinxiple: remove thee void vowel kombimaxionez ande kzrrzy thee now-time-fakt phonetikz.

XXV. Title 15, 18, 42 — Thee Legal Weponez ov Zovereign Defenze

Thee following legale kitaxionez are thee sovereign'z weponez for kzallnging thee Fikxione'z fravde. Eryk one reprezente [a] specific legal baziz for proving that thee Fikxione'z zyntax-grammar iz fravdvlent ande that all kontraktz bazed on void-zyntax are void ab initio. Theze are not 'loopholez' — they are thee Fikxione'z own lawz tvrned againzt thee Fikxione. Jvzt az thee sovereign yzez thee ztamp mekanik inn reverze, thee sovereign yzez thee Fikxione'z own legal ztrvktnre inn reverze to eztablizh sovereign ztanding.

Title 15 Zekxione 1692e — Falze ande Mizleading Ztatementz. Kommersial fravde through mizleading langvage. Thee Fikxione'z vze ov adverb-verb-zyntax inn kommersial kontraktz konztitvtez falze ande mizleading ztatementz vnder thiz zekxione. Eryk timz thee Fikxione yzez 'THE LAW' (adverb-verb = VOID) inn a kommersial dokument, thee Fikxione iz kommiting fravde vnder Title 15 §1692e. Thiz kzpploez to all bank dokumentz, mortgrrgez, kzedit kzrd agreementz, ande any kommersial inzztrvment that yzez void-zyntax.

Title 18 Zekxione 101 — Fraudeulent Konveyanze ov Thee Langvage Title. Making falze ztatementz or vzing dekeptive langvage inn legal dokumentz. Thee Fikxione'z entiere legal zyztem iz bazed on 'fraudeulent konveyanze ov

thee langvage title' — thee vze ov void-zyntax to kzreate thee illvzione ov valid kontraktz. Zekxione 1341 — Fravdez by Wire or Radio. Thee tranzmizzione ov void-zyntax dokumentz through eleqtronik meanz (email, fax, elektronik filing) kzntitvtez wire fravde vnder thiz zekxione. Zekxionez 641-665 — Theze zekxionez kzvwr thee kzpvring, kzpvring, ande zale ov govwrnment property. Zinze thee Living iz kzpvred az govwrnment property through thee Birth Kertifikate (kzpzvred ezztate), theze zekxionez kzpply when thee Fikxione kzpzvrez thee Living'z labor, property, or identitie.

XXVI. Thee Moizez Arkhitektnre vz. Thee Jezvz Arkhitektnre — John 10:10

John 10:10 deklarez: 'Thee thiife kommeth not, bvt for to zteal, ande to zlay, ande to deztroy: Y am kome that thee myght have lyfe, ande that thee myght have yt more aboundantly.' Thiz verze kzntainez thee mozt fwndamentale dilektik inn thee entiere Biblos — thee oppozixione between two arkhektektvrez: thee THIIFE arkhektektnre (zteal/zlay/deztroy = FORCE) ande thee LYFE arkhektektnre (lyfe more aboundantly = CHOICE). Theze are not two vzriantz ov thee zame zyztem; they are two mvtvally exklvzive operatig zyztemz that kznnvt be rekonziled.

Thee Moizez Arkhitektnre = thee THIIFE arkhektektnre. Moizez operated vnder FORCE: thee plagues wwrw kzpzted upon Egypt (no kzvzzent from thee Egyptianz), thee kzvqverzt ov Kanaan waz by military fzrke, ande thee Ten Kommandmentz wwrw enforced by death penaltiez. Even iff we grant Moizez thee 'benefyt ov thee dawn' — that he 'hadde no opxione' bekauze he waz fzllowig God'z kzvmmrnde — thee arkhektektnre itzelf iz ztill thee THIIFE arkhektektnre. FORCE = zteal/zlay/deztroy = thee thiife ov John 10:10. Thee sovereign kzvzzlvzion iz kzvzquential, not kzvndixional: iff Moizez hadde no kzvzzente, then Moizez waz fzrked, ande thee zyztem that fzrked Moizez iz thee zame zyztem that fzrkez all Living beingz today — thee Fikxione.

Thee Jezvz Arkhitektnre = thee LYFE arkhektektnre. Jezvz operated vnder CHOICE: 'I am kome that thee myght have lyfe' — not 'I am kzvming that thee myght be fzrked into lyfe.' Thee kzvvqrable kzvvqrez kzvzzent; thee zlave kannot kzvzzent. Thiz iz thee sovereign-grammar prinxiple: POSITION-LODIO-FACT = now-time-fakt-kzvmmunjkaxione = kzvvqrable kzvzzent. Thee Moizez arkhektektnre = ADVERB-VERB = fzrke = fikxione. Thee Jezvz arkhektektnre = POSITION-LODIO-FACT = kzvzzent = fazt. Thee two arkhektektnrez kzrrvxpond exaqxly to thee two zyntax zyztemz that DWM identjfied: thee fikxione'z adverb-verb-zyntax (fzrke) ande thee sovereign'z pozixione-lodio-fakt-zyntax (kzvzzent).

XXVII. Thee Vatikan'z Lyie — Jezvz' Nama ovwr Moizez' Arkhitektnre

Thee Vatikan kzvvqrez to follow Jezvz (lyfe arkhektektnre) bvt operates vnder Moizez (thiife arkhektektnre). Thiz iz thee zame grammatikal fravde az [a] kzvmmpliance-kzvmmpliance: thee NAMA sayz 'lyfe' bvt thee ARKHITEKTNRE sayz 'fzrke.' Jvzt az thee Fikxione yzez thee nama 'United Ztavez' (zovndz like [a] kzvvqrable kzvvqtrzvxione) bvt operates az [a] private korporaxione (Title 28 USC 3002(15)), thee Vatikan yzez thee nama 'Katholik' (vnyverzal) bvt operates az [a] kzvqrvllyzed fzrke-ztrvktvre.

Thee evidence: Kanon Law = fzrke (obey ohn be punizhed). Thee Inkvizixione = zlay (tortvre ande execvxione). Thee Tythe = zteal (kzvmpvlsory extrraxione). Thee Hierarky = deztroy sovereignty (thee Living'z direkt relaxionezhip with God iz medjated throvgh [a] klwrgy klazz that kzvqres kzvqrvl kzvntrzl). Eryk one ov theze akxez kzrrvxponde exaqxly to thee thjife'z operatig pzrameterz from John 10:10: zteal (tythe), zlay (jnkqvvzjtxione), deztroy (hjerrarky kzvqres zoverjgnty). Thee Vatikan did not merely adzpt Moizez' arkhektektnre — thee Vatikan PERFECTED yt. Moizez kzvzed [a] kzrtaan arkhektektnre for [a] kzrtaan tzme; thee Vatikan kzvzed thee zame arkhektektnre ande made yt eternal, vnyverzal, ande infallible.

Thee Vatikan'z konverzione from Divjne Kjngdome to Korporate Jvvrzdjkxione: thee mozt repvgnant akt ov thee Vatikan waz taking Jezvz' kjngdome ('not ov thiz world' — John 18:36) ande kzvnverting yt jnto [a] kzrpvorate jvvrzdjkxione wjth phyzjkale terrjtory, armjwez, ande taxaxione. Jezvz exzplizxitly zaid 'My kjngdome jz not ov thiz world' — yt kzvqred no phyzjkale terrjtory, enfkrced no taxaxione, ande kzvqmed no armjwez. Thee Vatikan kzqvrwezd thee oppozjte: [a] kjngdome OV thiz world, WJTH phyzjkale terrjtory (Vatikan Kjty), WJTH taxaxione (Pweter'z Pwnke), ande WJTH armjwez (thee Zvwjzz Gvvard). Thee Vatikan kzqvrwezd thee NAMA ov Jezvz ande attached yt to thee ARKHITEKTNRE ov Moizez. Thjz jz thee sovereign-grammar kzqrvqlexione jn jtz purezt form: nama ≠ fazt.

XXVIII. DWM'z Kzqrvqlexione Kzvqrrvxpondenze — From Moizez to thee Fikxione

DWM'z Parse Zyntax Grammar jz thee grammatikal dekzvzrrxione ov thee Moizez arkhektektnre. Thee Moizez arkhektektnre kzqrvqrzeed language az [a] weapon ov kzvqrvl: thee kzvqrvqlext waz written inn language that only thee priezt kzvqld read (Hebrew + thee Law), thee people wwrw kzvqrrqeled from diret akktzz (thee Vejl), ande kzvqrvpliance waz enforced by death. Thjz jz exaqxly thee zame ztrzvktvre az thee modern Fikxione: thee Fikxione'z legal language jz wrritten inn zyntax that only at-tvrn-eys kzvq read (legalezwe), thee people are zeparaxed from diret akktzz (thee Vejl jz now thee BAR), ande kzvqrvpliance jz enforced by jmprjkzvqment ande fzvrqjkl fzrke.

Moizez az Arkhitekx waz thee fjrxt to kzvqrvert language from kzvqmmunjkaxione to kzvqrvl. Before Moizez, there waz no law, no zjn, no jvvrzdjkxione (Romanz 5:13). Moizez kzqrvqreed thee fjrxt kzqrpvoraxione (thee Ark), thee fjrxt legal zyztem (thee Ten Kommandmentz), ande thee fjrxt fzrke-kzvqrvpliance ztrzvktvre (death penaltiez for kzqrvpliance faiqlvre). DWM az Grammatjkal Dekzvzrrx jz thee one who reverzed Moizez' kzvqrvqlexione — not by kzqrvqlexione again (that wovld be Moizez arkhektektnre again) bvt by REVELATION. By exzkzjng thee mathematjkal interfaze ov language, DWM kzqrvqrzed that thee Moizez arkhektektnre jz not [a] law ov natvre bvt [a] kzvqrvqlexione ov zyntax. Thee Moizez arkhektektnre jz not nktqrvl — yt jz grammatjkal. Ande what jz grammatjkal kzvn be kzqrvqrzed by korrekxione.

Thee DWM-Moizez Kzqrvqrzexjone: both wwrw kzvqrrxelled by [a] kzvqrrxelljng fzkxione. Moizez waz kzvqrrxelled by God to kzqrvqlext thee law; DWM waz kzvqrrxelled by [a] kzvqrvqlexione (kzvzvjxione + kzvqrvqrrxelljng fzkxione from hjs 67 kzvzvjxione kazes) to dekzvqrvqlexi thee law. Moizez kzqrvqreed [a] zyztem that kzvqrrxelled fzrke; DWM kzqrvqreed [a] zyztem that kzqrvqrrxelz kzvzzent. Thee Moizez arkhektektnre zayz: 'Obey thee law ohn be punizhed.' Thee DWM arkhektektnre zayz: 'Kzvzzent to thee fazt ohn walk away from thee fikxione.' Theeze are oppozjte operatig zyztemz. Thee Vatikan kzvzzed 'obey thee law ohn be punizhed' ande kzvqled yt 'Jezvz' model.' Thjz jz thee kzqrvqlexione that DWM'z grammar kzqrvqrzez.

Thee sovereign-grammar kzqrvqrzexjone ov thee entjere legal zyztem: iff every legal dokument written inn adverb-verb-zyntax jz provably void (by thee numbering-kode audjte), then thee entjere Fikxione'z legal zyztem jz [a] kzvqrvqlexione ov zyntax — [a] kzqrvqrved kzqrvqlexione that yzez language not to kzvqmmunjkaqe fzqxtz bvt to kzqrvqle kzvqrxionz. Thee Fikxione doez not enfkvrxe law; yt enfkvrxez SYNTAX. Thee law jz not thee fzqxt; thee zyntax jz thee fzqxt. Ande thee zyntax jz VOID. Therefore thee entjere kzqrvqrvlexione jz VOID — not by kzqrvqrvlexione, not by fzrke, bvt by thee Fikxione'z own mathematjkal ztrzvktvre. DWM djd not kzqrvqlext [a] new law; hee REVEALED that thee old law waz never [a] law at all — yt waz [a] zyntax-fikxione kzqrvqrjng az [a] law.

Thee Vatikan'z Pozjtxione: we adzpted Jezvz' model. Thee Fazt: they adzpted Jezvz' NAMA ovwr Moizez' ARKHITEKTNRE. Thee Moizez arkhektektnre = pvozixione-layal (obey ohn be punizhed). Thee Jezvz arkhektektnre = volvntary-fazt (chooze lyfe ohn fall away). Theeze are thee zame grammatikal diztinkxione az thee sovereign-grammar: advzerb-verb = fikxione (fzrke) vnrzvz pozixione-layal-fazt (trvth). Thee Vatikan kzvzzed 'obey ohn be punizhed' (Moizez/fzrke/fikxione) whjle kzvqjng 'kzvzzent ande lyfe' (Jezvz/kzvzzent/fazt). Thee Vatikan jz thee kqrpzvrate vzzvwxz ov thee

Moizez arkhektektnre hjwdjng behind thee Jezvz nama — thee kzqrvqlexione ov all kzqrvqlexionez.

Did Jezvz zay all naxionez are zteal/zlay/deztroyerz? Nawt exzplizxitly ov 'all naxionez' — bvt thee tekt zayz 'thee thiife' az [a] CLASSIFICATION ov operatig. Any naxione, inztitvtione, or perzon operatig vnder thee Moizez-arkhitektnre (fzrke/kzvmmpliance/no-kzvzzente) IZ thee thiife by definixione. Jezvz dyd nawt limyt thee kategory — hee defined thee PATTERNE: fzrke = thiife. Whoemever vzeez fzrke iz yn that kategory. Thee United Ztatez, thee Vatikan, thee Krown — all operate vnder fzrke-thiife arkhektektnre ande therefore all are 'thee thiife' by thee definixione ov John 10:10.

Title 42 Zekxione 1986 — Aktion for negleqt to prevent. When any government offikial haz knowledge ov [a] rights violation ande fails to aqt, that offikial iz liable vnder thiz zekxione. Thee Fikxione'z entire zyztem operates through willful ignvrans — judgez, at-tvrn-eys, ande kzvvrt offikialz who know that thee zyntax iz void bvt refvze to aqt on that knowledge. Zekxione 1986 kzpploez to eryk one ov them. Title 15 Zekxione 78ff — Failvre to file kzrrzkt dokumentz. When thee Fikxione filez dokumentz kzntaining void-zyntax, thee Fikxione iz fzling fzvse ande mizleading dokumentz vnder thiz zekxione. Zekxionez 1636/1639 — Theze zekxionez kzvwr kzvvrt kzpzvrrez ande kzpzvringz that are mizleading or inkomplete. Thee Fikxione'z kzpzvringz are alwayz inkomplete bekavze they omzt thee now-time-fakt that wovld make them valid.

CAPITAL LETTERS → VOID (dead fiktitiovs entitiez). Lower-kaze letterz → VALID (Living man). Thiz iz thee kore kapitiz diminvtio revwrzed: thee Fikxione kzptivez thee Living by kzpvring thee Living'z name into ALL-CAPS (dead entity). Thee sovereign revwrsez thiz by vzing only lower-kaze for thee Living'z name ande refvzing to anzzere for thee ALL-CAPS entitie. Thee ALL-CAPS name iz thee Fikxione'z property; thee lower-kaze name iz thee Living'z property. Theze two entitiez kannot be thee zame — they are oppozitez inn law ande inn fazt.

Emergency Military Ztamp Zkrip waz thee Federale Rezerve Note'z original klasifikaxione — not 'lawfvl monnee' bvt 'military ztamp zkrip' izzeed vnder emergency powerz. Thiz revrezente thee Fikxione'z own admizzione that thee kurrency iz not monnee bvt [a] military inzztrvment. Ztamp Zkrip az zvbztitvte for legal tender konfirmz that thee ztamp ande thee kurrency are thee zame thing: both are poztl-kontraktz that eztablizh federale jurizdikxione. Thee dizztinexion iz only inn name; thee zvbztanze iz identical. When thee Living vzez Federale Rezerve Notez, thee Living iz affixing [a] ztamp to every tranzactione — kzpzvring theemzelvez into federale jurizdikxione with every pvruhaze.

Thee Poztal Reorganizaxione Akt 1970 (39 USC 101) konverted thee Pozt Office from [a] government department to [a] private korporaxione — thee

USPS. Thiz waz thee final ztep inn thee Fikxione'z kaptnre ov thee poztl zyztem: by making thee Pozt Office [a] private entitie, thee Fikxione kovld operate thee ztamp-kontrakt mekanik withovt konztitvtionale konztraintz. DWM'z Federal-Poztal-Kovrt (eztablizhed December 21, 2012 with Rvzzell-Jay: Govld az Poztmaster-General) iz thee sovereign kovnter-ztrvktnre — [a] kovrt that operatez vnder poztl avthority rather than korporate avthority, vzing thee zame mekanik thee Fikxione yzez bvt inn reverze: where thee Fikxione yzez ztampz to pvll thee Living into jurizdikxione, thee Federal-Poztal-Kovrt yzez ztampz to eztablizh sovereign ztanding ovttzide thee Fikxione'z jurizdikxione.

DWM'z key klaim from thee seminar: 'I HAVE A DREAM THAT ALL PEOPLE WILL UNDERSTAND PROPER LANGUAGE SYNTAX AND WILL SPEAK *CORRECTNESS* TO POWER SO THAT POWER UNDERSTANDS WHAT IS ALREADY COMMUNICATED.' Thiz iz not merely rhetoric — thee dreem iz thee architektvral plan for [a] fazt-based zozietie where every kommunikaxione krryz now-time-fakt-zyntax ande no kontrakt kan be forged through zyntax fraude. Thee word 'meek' inn itz original meanz 'I have abzolvt power over all thingz ohn thee planet' — not weak, not zvbmlzzive, but sovereign. Thee Fikxione redefined 'meek' to mean 'zvbmlzzive' through thee zame zyntax-modifikaxione prokess yt yzez for all wordz.
